Stein can be an overwhelming presence Fortunately she started off simply enough, and readers are eased into her writing in this volume. The first novella, Q.E.D. , written in 1903 but not published until 1950 (in a limited edition, and under a different title), is a fairly straightforward narrative, straining too hard to follow in nineteenth century tradition.

The Autobiography of Alice B. Toklas is a book by Gertrude Stein, written in October and November of 1932 and published in 1933. It employs the form of an autobiography authored by Alice B. Toklas, her life partner. In 1998, Modern Library ranked it as one of the 20 greatest English-language nonfiction books of the 20th century.

The Autobiography of Alice B. Toklas - Wikipedia

Gertrude Stein. *Rose is a rose is a rose is a rose*. first appearance: "Sacred Emily" (1913) collected in: *Geography and Play* (Boston: Four Seas Co., 1922), pp. 178-188. Selected Writings of Gertrude Stein, Vintage Books, 1990. Writings: 1903-1932, ed. Catharine R. Stimpson and Harriet Chessman (New York: Library of America, 1998), 387-96.

The first in a two-volume set of works combines fiction with the author's personal experiences in Paris and includes the play *Four Saints in Three Acts* and *Lifting Belly*, in which she documents her wonderful relationship with Alice B. Toklas.

The second in a two-volume set furnishes Stein's later literary masterpieces, including *Stanzas in Meditation*, *Lectures in America*, and *The Geographical History of America*, and details her relationship with Picasso and the public figures that inspired her works.

First published in 1931, this volume offers Gertrude Stein's reflections on the art and craft of writing. Although written in her distinctive experimental style, the book is remarkably accessible and easy to read. The modernist author's characteristic humor is borne out by some of the chapter titles, "Saving the Sentence," "Arthur a Grammar," "Regular Regularly in Narrative," and "Finally George a Vocabulary." Stein's experimental style features elements such as disconnectedness, a love of refrain and rhyme, a search for rhythm and balance, a dislike of punctuation (especially the comma), and a repetition of words and phrases. Those who are unfamiliar with her Stein's work or have found it difficult to understand will discover in *How to Write* an excellent entrée to a unique literary voice and an imaginative approach to language that continues to inspire writers and readers.

The Autobiography of Alice B. Toklas was written in 1933 by Gertrude Stein in the guise of an autobiography authored by Alice B. Toklas, who was her lover. It is a fascinating insight into the art scene in Paris as the couple were friends with Paul Cezanne, Henri Matisse and Pablo Picasso. They begin the war years in England but return to France, volunteering for the American Fund for the French Wounded, driving around France, helping the wounded and homeless. After the war Gertrude has an argument with T. S. Eliot after he finds one of her writings inappropriate. They become friends with Sherwood Anderson and Ernest Hemingway. It was written to make money and was indeed a commercial success. However, it attracted criticism, especially from those who appeared in the book and didn't like the way they were depicted.

Gertrude Stein, as a college student at Radcliffe and a medical student at Johns Hopkins Medical

School, was a privileged woman, but she was surrounded by women who were trapped by poverty, class, and race into lives that offered little choice. Her portraits of Anna and Lena are examples of realistic depictions of immigrant women who had no occupational choice but to become domestic workers. This collection of documents from the history of women's suffrage, medical history, modernist art, and literature enables readers to see how radical Stein's subject was.

Before Gertrude Stein became the twentieth century's preeminent experimental writer, she spent a decade conducting research at Harvard's psychological laboratory and the Johns Hopkins Medical School. This book shows how her extensive scientific training continued to exert a profound influence on the development of her extraordinary literary practices.

Back in 1936, Thornton Wilder had warned Gertrude Stein to get her unpublished manuscripts into the safekeeping of the Yale Library because of the danger of another world war's breaking out on French soil. Charmed by the notion that all her work was to be safely harbor-ed for later publication and study, Gertrude packed several cases of manuscripts, letters and miscellany and sent them off. The packing was done with characteristic Steinian abandon: neatly piled manuscripts were dumped into crates, and correspond-ence, carefully alphabetized and filed at the end of each year by Gertrude's amanuensis, Alice Toklas, was pulled out in drawerfuls and overturned into the crates. Finally, all the scraps of paper that Gertrude never threw away, budget lists, garage attendants' instructions about the Fords she owned during the 10's and 20's ("regardez le carburetor"), forgotten old dentist's bills, were tossed in, too. Alice re-monstrated about their inclusion, but Gertrude used every hoarder's excuse: "You can never tell whether some laundry list might not be the most important thing." Two packages in brown wrapping paper at the bottom of the armoire, lying among chunks of manuscript of her novel, *The Making of Americans*, fell into the crates along with all the other papers...

"Alice B. Toklas wrote hers and now everybody will write theirs." In 1933 Gertrude Stein's *The Autobiography of Alice B. Toklas* skyrocketed to the top of the bestseller lists, and the author found herself a celebrity. Everybody's *Autobiography* is the very Steinian account of her soul-satisfying next five years in France, England, and America, where she made a triumphant tour of the country. Here are Stein's devastating analyses of some of the major figures of the day whom she met—among them Dashiell Hammett, Charlie Chaplin, Pablo Picasso, Marianne Moore, Mrs. Roosevelt, and Sherwood Anderson—and also of her own life and work.

Selected by the Modern Library as one of the 100 best nonfiction books of all time 'I always wanted to be historical,' Gertrude Stein once quipped. In 1932, Stein began writing the 'autobiography' of her longtime friend and companion, Alice B. Toklas. The book, an immediate bestseller, guaranteed them both a place in history. An account of their life together in Paris before, during, and after World War I, it is full of the atmosphere of the changing life of the city and of idiosyncratic glimpses of such figures as Matisse, Picasso, Braque, Cocteau, Apollinaire, Pound, Eliot, Hemingway, and other luminaries and aspirants who were their close friends. But at the center of the narrative there is always the titanic figure of Gertrude Stein, the self-proclaimed 'first-class genius' who some dismissed as the 'Mother Goose of Montparnasse,' presiding over her celebrated residence-salon-art gallery at 27, rue de Fleurus. William Troy remarked about her: 'It is not flippant to say that if she had not come to exist . . . it would be necessary to invent Miss Gertrude Stein.'
