Here's a book that gives some of the simplest advice ever to kids experiencing stress: Be yourself—be a kid! Some stress is natural as children face developmental challenges, contends the author, a school and community counselor. But throw in societal pressure to be an "all-star," life changes, and family stress—and kids can end up in a "stress mess." This little guidebook will make a difference.

NEW YORK TIMES BESTSELLER • "This book is a gift! I've been practicing their strategies, and it's a total game-changer."—Bren   Brown, PhD, author of the #1 New York Times bestseller *Dare to Lead* This groundbreaking book explains why women experience burnout differently than men—and provides a simple, science-based plan to help women minimize stress, manage emotions, and live a more joyful life. Burnout. Many women in America have experienced it. What's expected of women and what it's really like to be a woman in today's world are two very different things—and women exhaust themselves trying to close the gap between them. How can you "love your body" when every magazine cover has ten diet tips for becoming "your best self"? How do you "lean in" at work when you're already operating at 110 percent and aren't recognized for it? How can you live happily and healthily in a sexist world that is constantly telling you you're too fat, too needy, too noisy, and too selfish? Sisters Emily Nagoski, PhD, and Amelia Nagoski, DMA, are here to help end the cycle of feeling overwhelmed and exhausted. Instead of asking us to ignore the very real obstacles and societal pressures that stand between women and well-being, they explain with compassion and optimism what we're up against—and show us how to fight back. In these pages you'll learn • what you can do to complete the biological stress cycle—and return your body to a state of relaxation • how to manage the "monitor" in your brain that regulates the emotion of frustration • how the Bikini Industrial Complex makes it difficult for women to love their bodies—and how to defend yourself against it • why rest, human connection, and befriending your inner critic are keys to recovering and preventing burnout With the help of eye-opening science, prescriptive advice, and helpful worksheets and exercises, all women will find something transformative in these pages—and will be empowered to create positive change. Emily and Amelia aren't here to preach the broad platitudes of expensive self-care or insist that we strive for the impossible goal of "having it all." Instead, they tell us that we are enough, just as we are—and that wellness, true wellness, is within our reach. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BOOKRIOT "Burnout is the gold standard of self-help books, delivering cutting-edge science with energy, empathy, and wit. The authors know exactly what's going on inside your frazzled brain and body, and exactly what you can do to fix it. . . . Truly life-changing."—Sarah Knight, New York Times bestselling author of *Calm the F*ck Down*

Dr. Elizabeth Lombardo's True Success™ series takes you on a journey from your inner critic to your authentic self through a research-supported process. The first book in the series, *Get Out of The Red Zone*, addresses passion and stress in new ways. We all experience both, but knowing how to work with our passions and manage and utilize our stress is a game-changer. More than just "use positive affirmations," Dr. E helps you identify what is uniquely holding you back and offers solutions on how to overcome it. Dr. E defines passion as "having positive energy, even in stressful times." Knowing your personal red zone will help you optimize your life and cultivate practices that transform your stress, resulting in True Success. In *Get Out of The Red Zone*, you will discover how to stop stressing and start living. The result is a transformation from the inside out where you will feel happier and more confident in both your personal and professional life.

Adults are not the only ones who deal with stress in their lives; kids do too. Many of the same worries that plague adults show up at very early ages in the lives of their children as well, and small people can be overwhelmed with big stress. Continuing the tremendously popular *Elf-Help for Kids* series, this book helps children and parents come to terms with the stress of a child's world with the colorful elves as guides.

Drawing from groundbreaking research, psychologist and award-winning teacher Kelly McGonigal, PhD, offers a surprising new view of stress—one that reveals the upside of stress, and shows us exactly how to capitalize on its benefits. You hear it all the time: stress causes heart disease; stress causes insomnia; stress is bad for you! But what if changing how you think about stress could make you happier, healthier, and better able to reach your goals? Combining exciting new research on resilience and mindset, Kelly McGonigal, PhD, proves that undergoing stress is not bad for you; it is undergoing stress while believing that stress is bad for you that makes it harmful. In fact, stress has many benefits, from giving us greater focus and energy, to strengthening our personal relationships. McGonigal shows readers how to cultivate a mindset that embraces stress, and activate the brain's natural ability to learn from challenging experiences. Both practical and life-changing, *The Upside of Stress* is not a guide to getting rid of stress, but a toolkit for getting better at it—by understanding, accepting, and leveraging it to your advantage.
