Booster Seat Owner's Manual - Graco

Approximately 2X Car Seat Standard New Car Assessment Program (NCAP) Graco® car seats are rigorously crash tested for structural integrity by duplicating the high crash forces in NHTSA's New Car Assessment Program, which results in a crash test that experiences approximately twice the impact force required by US FMVSS 213. This test mimics an acceleration speed and crash force approximately twice that of the federal standards, helping keep your child safe in extreme crash scenarios.

Graco's Car Seat Safety Standards | Graco

Graco defines "useful life" as 10 years for belt-positioning boosters and for steel-reinforced belt path car seats and 7 years for plastic-reinforced belt path car seats. Due to frequent changes in vehicles, regulations, safety technology and general wear and tear, Graco recommends not to use a car seat past its expiration date.

Car Seat Expiration| Graco

Government regulations of car seats began in the 1970s, and continued to evolve until the mid-1980s, when car seats and seat belts became mandatory. These early attempts lacked the safety features of current models, but it is also important to remember that the safety features from even a few years ago differ from models today.

This is what's known as a high-back booster seat. These child car seats are approved for use with children from 15-36kg, which is around three and a half to 12 years of age (around 36kg, or 135cm tall). There's no need to swap to a Group 2/3 seat until your child has outgrown his or her toddler/Group 1 seat.

Booster Seats - Are You Breaking The Law? - Which?

Car seats are vital for the safety of children when traveling anywhere in a vehicle, and the guidelines are solid for what your kid needs depending on their height, weight, and age. Experts recommend a rear-facing car seat for at least the first year of life, switching to a forward-facing model once they hit the one to three year age bracket.

5 best car seats to keep your kid safe throughout ...

Suitable up to 18kg, this group includes harnessed car seats for 2 and 3 year olds. By 4 years old, some children will be ready to move on to group 2-3 car seats, depending on their size. A combination travelogue and guidebook that tells the humorous tale of the authors' vacation in Costa Rica while also giving valuable travel tips.

A latest edition of a best-selling reference features a new design and expanded information on the preschooler years, in a guide that covers topics ranging from infant care and food allergies to sleeping habits and autism. Original.

Distinguished pediatrician Dr Robert Bucknam, M.D. and co-author Gary Ezzo are two of the world's leading experts on baby sleep and feeding patterns. Millions of new mothers across the globe are coming toward this new brand at an increasing pace as they find and share the life changing success they are achieving with their newborns. This updated Anniversary edition celebrates 25 years with Bucknam and Ezzo's groundbreaking approach which has found favor with over six million parents in all 50 states and has been translated into 20 languages around the world. For 25 years, On Becoming Babywise has been the de facto newborn parenting manual for naturally synchronizing your baby's feeding time, waketime and nighttime sleep cycles, so the whole family can sleep through the night. In his 28th year as a licensed Pediatrician, Dr. Robert Bucknam, M.D. along with co-author Gary Ezzo, demonstrate how order and stability are mutual allies of every newborn's metabolism and how parents can take advantage of these biological propensities. In particular, they note how an infant's body responds to the influences of parental routine or the lack thereof. Early chapters start with explorations of everyday aspects of infant management such as the three basic elements of daytime activities for newborns: feeding time, waketime, and naptime. Practical discussions then focus on broad and niche topics including feeding philosophies, baby sleep problems, baby scheduling challenges, nap routines, sleep training multiples, baby sleeping props, Colic and Reflux and many other dimensions which impact breast feeding schedules, bottle feeding tips, and baby sleeping training. Five resource Appendixes provide additional reference material: 1) Taking care of baby and mom 2) A timeline of what to expect and when 3) Baby Sleep Training Problems and Solutions 4) Monitoring Your Baby's Growth 5) Healthy Baby Growth Charts On Becoming Babywise is more than an infant-management concept. It is a mindset for successful parenthood. It can help any parent develop a plan that meets both the needs of a new baby and of the entire family. These principles have worked for millions of parents and, when applied with common sense to your unique situation, can work wonderfully for you too! Recommended by doctors across the country.

Newly updated 2019-20 Edition We understand how precious your time is, so we made Baby Can Travel: Anywhere quick and easy to read. This new & improved "second child" edition shares the lessons we learned traveling with our second baby and his older toddler sister around the world. This book covers everything you need to know about traveling with a baby and toddler, from trip planning to making the most of your vacation, including: Improve Your Trip: * Learn how to keep your baby happy and developing while on your vacation.* See and do more on your vacation days with our many time saving tips. * Anticipate the developmental stage of your 'future' baby to be prepared for their needs while on the trip.* Tips on booking flights and accommodations best suited to your family's needs. Build Your Confidence: * Relax and not fear the travel days. It's not as bad as everyone says!* All you need to know about breastfeeding in public, eating out with a baby, etc.* How to travel safely with your baby.* Learn from us with honest and realistic accounts of our experiences.

A safe and simple action plan for autism parents. Each year, more than 50,000 U.S. families receive an autism diagnosis. On top of turmoil and worry, they share the same urgent question: What can we do to help our child? The answers parents find can be contradictory...even dangerous. The conventional approach (employed by too many pediatricians) is to medicate difficult behaviors into submission--suppressing symptoms while leaving underlying health challenges untouched. Surfing the Internet for alternatives just leads to confusion. Now, Dr. Janet Lintala, founder of the Autism Health center and an

autism mom herself, shares the natural protocols used in her practice to dramatically improve the function and well-being of children on the spectrum. Drawing on the latest research developments, as well as personal and clinical experience, she targets the underlying issues (chronic inflammation, oxidative stress, gastrointestinal dysfunction, immune dysregulation) associated with the behavior, bowel, and sleep problems so common to autism. Correcting these overlooked conditions with digestive enzymes, probiotics, antifungals, and other nonpsychiatric treatments brings transformative results: less pain, less aggression, and a child who is more receptive to behavioral and educational interventions. While the medical profession is slow to change, autistic kids need help immediately. The Un-Prescription for Autism provides clear explanations, detailed protocols, and examples to help parents act quickly to restore their child's health, self-control, and language-paving the way for reaching their full potential.

Earth Day celebrates our beautiful planet and calls us to act on its behalf. Some people spend the day planting flowers or trees. Others organize neighborhood clean-ups, go on nature walks, or make recycled crafts. Readers will discover how a shared holiday can have multiple traditions and be celebrated in all sorts of ways.
