Special Education in Ontario (Draft Version, 2017)

K-12 Teacher`s Guide (TG) and Learner`s Material (LM) are resources used in preparing daily lessons. Additional resources include materials from the Learning Resources Management and Development System (LRMDS) portal, textbooks, and others supplementary materials, whether digital, multimedia, or online, including those that are teacher-made.

This second edition of a resource designed to help teachers find relevant information on the Internet for both themselves and their students, provides concise reviews of more than 1,000 Web sites sorted by subject area. Each site is evaluated with one to five stars for content, presentation and grade level. Easy-to-follow explanations are provided of how each site can be used in the classroom. Also presented are search tips to help teacher find more sites on their own. Besides the rating of Internet sites, the book includes information on hardware and software requirements, safety on the Internet, plug-ins, and helpful information such as criteria for site selection and searching the Web. An element called "Finding Where You Have Been" helps teachers relocate sites they have viewed. Other helpful features are "Searching the Web" and a "Glossary of Terms" to familiarize teachers and students with the Internet. The introductory material on "Safety on the Internet" provides guidelines for teachers. A generic Acceptable Use Policy is also included that is copyright-free for schools to adapt to their needs. Recommendations for filtering software are offered for Internet use in places where individual monitoring is not possible, such as libraries. Data is provided on an Internet license system in which parents or caregivers sign an agreement for their child to access the Internet. Sites are provided under the following curriculum areas: language arts; mathematics; science; foreign languages; general and professional sites for educators; health and physical education; information and communication; music and performing arts; technology in education; and visual arts. (AEF)

Information on Projects to Advance Creativity in Education in the form of a compilation of planning and operational grants.

To provide our customers with a better understanding of each title in our database, we ask that you take the time to fill out all details that apply to each of your titles. Where the information sheet asks for the annotation, we ask that you provide us with a brief synopsis of the book. This information can be the same as what may appear on your back cover or an entirely different summary if you so desire.
