Do teachers have a front row seat to America's decline? Jeremy S. Adams, a teacher at both the high school and college levels, thinks so. Adams has spent decades trying to instill wisdom, ambition, and a love of learning in his students. And yet, as he notes, when teachers get together, they often share an arresting conclusion: Something has gone terribly wrong. Something essential is missing in our young people. Their curiosity seems stunted, their reason undeveloped, their values uninformed, their knowledge lacking, and most worrying of all, their humanity diminished. Digital hermits of a sort unfamiliar to an older generation, they have little interest in marriage and family. They largely dismiss—and are shockingly ignorant of—religion. They sneer at patriotism, sympathize with riots and vandalism, and regard American society and civilization as so radically flawed that it must be dismantled. Often friendless and depressed, they eat alone, study alone, and even “socialize” alone. Educators like Adams see a generation slipping away. The problems that have hollowed out our young people have been festering for years. A year of COVID-19 lockdowns and social distancing have magnified them. The result could be a generation—and our nation's future—lost in a miasma of alienation and stupefaction. In his stunning new book, *Hollowed Out*, Jeremy S. Adams reveals why students have rejected the wisdom, culture, and institutions of Western civilization—and what we can do to win them back. Poignant, frightening, and yet inspiring, this is a book for every parent, teacher, and patriot concerned for our young people and our country

Judith Lieu's study explores how a sense of being a Christian was shaped within the setting of the Jewish and Graeco-Roman world. By exploring this theme she reveals what made early Christianity so distinctive and separate.

"Written by a national leader in early childhood music education, this creatively illustrated book contains everything you need to lead a music class for preschool and early elementary students, including: echo songs, call-and-response songs, simple songs, songtales, action songs, circle games, beat motion activities, and more. Repertoire in the curriculum is based on folk music and traditional songs and rhymes because of their natural melodic expressiveness, language flow, and texts filled with wonder. Additionally, the book includes complete lesson plans for a three-year curriculum, coordinates with high-quality recordings, and offers a classical music component perfect for movement."--From publisher's description.
