L'any 2011 es commemora el 25è aniversari de la creació de la primera estructura organitzativa estable dedicada a les malalties autoimmunes a l'Hospital Clínic de Barcelona, la Unitat de Recerca en Malalties Autoimmunes Sistèmiques. Aquesta Unitat es va constituir el 1986 com a part de l'organigrama de recerca del Servei de Medicina Interna General i va ser la pecursora de l'actual Servei de Malalties Autoimmunes. Enguany també arriba a la jubilació Miguel Ingelmo, primer cap del Servei i promotor d'aquesta estructura, juntament amb Josep Font (mort prematurament el 2006 als 53 anys d'edat, en plena maduresa professional). En aquesta memòria dels primers 25 anys (1986-2011) de dedicació estable a les malalties autoimmunes a l'Hospital Clínic es fa un repàs cronològic de les principals fites assolides, així com de les estructures assistencials, docents, de recerca i de divulgació que s'han desenvolupat. Però, per damunt de tot, es fa memòria dels gairebé 500 companys (metges i personal investigador i de suport) que han passat pel Servei i han posat el seu gra de sorra en aquest projecte professional, que ha permès l'atenció personalitzada i integral a més de 10.000 pacients i que ha generat una gran quantitat d'estudis de recerca i d'activitats docents i divulgatives, reflectides en més de 300 articles originals, més de 40 llibres, diverses dotzenes de cursos i la creació d'una escola en el camp de les malalties autoimmunes de reconegut prestigi nacional i internacional.
