The years 1980 until 1993, a time we call the New York days, are the final unknown piece of the jigsaw puzzle that was Freddie Mercury's life. (Rock superstar and always dynamic front man of Queen). In fact, the movie Bohemian Rhapsody basically skipped over this important time of his life, moving from 1980 to 1984 in maybe fifteen to twenty seconds. My close friends Lee Nolan, Joe Scardilli, and John Murphy were eager to meet Freddie when he returned in 1981 after I had first met him in 1980. Freddie and his twenty-four-hour attendant and loyal friend, Peter Freestone, liked our group and wanted very much to be a part of it. At that time, many of New York City's residents and day-trippers from Long Island and New Jersey knew Queen's music but could not identify the band members. Freddie felt free and absolutely cherished this newly found and so-unavailable-in-Europe nonrecognition. He had recently grown a mustache, cut his hair short, wore jeans and tee shirts, and blended in perfectly with the gay culture in New York-we mostly all looked alike! Freddie loved being just "one of the boys." Unfortunately, John and Joe have passed on. Lee and I, however, continued the relationship beyond 1986 when we were invited several times to Freddie's beloved Garden Lodge in the heart of London. Lee was the constant photographer and has preserved a great many of these photos, which have never been seen prior to our book. One of the last things that Freddie repeated to Lee on our last visit, June 1991, was to "make these photos work for you, darling!" You will see wonderful photos of Freddie, off the stage and participating in the real world. You will see fun and excitement in his face at every turn of the page. Enjoy! Thor Arnold and Lee Nolan

This book centers on two inquisitorial investigations, both of which began in the 1540s. One involved the relations of Europeans and Native Americans in an Oaxacan town (in New Spain, today's Mexico). The other involved relations of Moriscos (recent Muslim converts to Catholicism) and Old Christians (people with deep Catholic ancestries) in the Mediterranean kingdom of Valencia (in the "old" Spain). Although separated by an ocean, the social worlds preserved in the inquisitorial files share many things. By comparing and contrasting the two inquisitions, Hamann reveals how very local practices and debates had long-distance parallels that reveal the larger entanglements of a transatlantic early modern world. Through a dialogue of two microhistories, he presents a macrohistory of large-scale social transformation. We see how attempts in both places to turn old worlds into new ones were centered on struggles over materiality and temporality. By paying close attention to theories (and practices) of reduction and conversion, Hamann suggests we can move beyond anachronistic models of social change as colonization and place questions of time and history at the center of our understandings of the sixteenth-century past. The book is an intervention in major debates in both history and anthropology: about the writing of global histories, our conceptualizations of the colonial, the nature of religious and cultural change, and the roles of material things in social life and the imagination of time.

We're in an age of information overload, and too much of what we watch, hear and read is mistaken, deceitful or even dangerous. Yet you and I can take control and make media serve us -- all of us -- by being active consumers and participants. Here's how. With a Foreword by Clay Shirky Praise for Mediactive: "Dan Gillmor has thought more deeply, more usefully, and over a longer period of time about the next stages of media evolution than just about anyone else. In Mediactive, he puts the results of his ideas and experiments together in a guide full of practical tips and longer-term inspirations for everyone affected by rapid changes in the news ecology. This book is a very worthy successor to his influential We the Media." --James Fallows, Atlantic Magazine, author of Postcards from Tomorrow Square and Breaking the News "Dan's book helps us understand when the news we read is reliable and trustworthy, and how to determine when what we're reading is intended to deceive. A trustworthy press is required for the survival of a democracy, and we really need this book right now." --Craig Newmark, founder of craigslist "A master-class in media-literacy for the 21st century, operating on all scales from the tiniest details of navigating wiki software all the way up to sensible and smart suggestions for reforming law and policy to make the news better and fairer. Gillmor's a reporter's reporter for the information age, Mediactive made me want to stand up and salute." --Cory Doctorow, co-editor/owner, Boing Boing; author of For the Win "As the lines between professional and citizen journalists continue to blur, Mediactive provides a useful roadmap to help us become savvier consumers and creators alike." -- Steve Case, chairman and CEO of Revolution and co-founder of America Online "It's all true - at least to someone. And that's the problem in a hypermediated world where everyone and anyone can represent his own reality. Gillmor attacks the problem of representation and reality head on, demanding we become media-active users of our emerging media, instead of passive consumers. If this book doesn't get you out of Facebook and back on the real Internet, nothing will." --Douglas Rushkoff, author of Program or Be Programmed: Ten Commands for a Digital Age "An important book showing people how to swim rather than drown in today's torrent of information. Dan Gillmor lives on the front line of digital information - there's no-one better to help us understand the risks and opportunities or help us ask the right questions." --Richard Sambrook, Global Vice Chairman and Chief Content Officer at Edelman, and former BBC Director of Global News "With the future of journalism and democracy in peril, Mediactive comes along with sage and practical advice at a crucial time. Dan Gillmor, pioneering journalist and teacher of journalists, offers a practical guide to citizens who now need to become active producers as well as critical consumers of media. Read this book right away, buy one for a friend and another one for a student, and then put Gillmor's advice into action." --Howard Rheingold, author of the Smart Mobs and other books about our digital future "Through common-sense guidelines and well-chosen examples, Gillmor shows how anyone can navigate the half-truths, exaggerations and outright falsehoods that permeate today's media environment and ferret out what is true and important. As Gillmor writes, 'When we have unlimited sources of information, and when so much of what comes at us is questionable, our lives get more challenging. They also get more interesting.'" --Dan Kennedy, assistant professor of journalism at Northeastern University, former Boston Phoenix media critic, and author of the Media Nation blog at www.dankennedy.net

#1 NEW YORK TIMES BESTSELLER In Sapiens, he explored our past. In Homo Deus, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today's most pressing issues. Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century.Bill Gates, The New York Times Book Review NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KQED How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari's 21 Lessons for the 21st Century is a probing and visionary investigation into today's most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari's unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, 21 Lessons for the 21st Century is essential reading. If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari's 21 Lessons for the 21st Century would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: What is happening in the world today, and what is the deep meaning of these events?BookPage (top pick)

An updated edition of the bestselling biography to include details of her sixth studio album The Truth About Love which was a worldwide number one hit and the birth of her first child in 2011. Paul Lester traces the extraordinary career of Alicia Beth Moore from Pennsylvania through her stint in the girl group Choice to her present incarnation as global superstar Pink. Split Personality reveals the two sides of this complex artist: the feisty fun-filled performer who at thirty continues to conquer in a teen-dominated industry and the conflicted woman whose dark urges have fuelled her deceptively upbeat glossy brand of hi-tech pop. This is a pop biography that makes for a truly exciting read that's worthy of it's electrifying subject!

Set against the cultural and political backdrop of interwar Europe and the Americas, Poetry in Pieces is the first major study of the Peruvian poet César Vallejo (1892–1938) to appear in English in more than thirty years. Vallejo lived and wrote in two distinct settings—Peru and Paris—which were continually crisscrossed by new developments in aesthetics, politics, and practices of everyday life; his poetry and prose therefore need to be read in connection with modernity in all its forms and spaces. Michelle Clayton combines close readings of Vallejo's writings with cultural, historical, and theoretical analysis, connecting Vallejo—and Latin American poetry—to the broader panorama of international modernism and the avant-garde, and to writers and artists such as Rainer Maria Rilke, James Joyce, Georges Bataille, and Charlie Chaplin. Poetry in Pieces sheds new light on one of the key figures in twentieth-century Latin American literature, while exploring ways of rethinking the parameters of international lyric modernity.

This deluxe kit will be on sale in time for the highly anticipated release of Harry Potter and the Deathly Hallows: Part II, in July 2011. In the movie, Harry and his friends are on a mission to seek and destroy Lord Voldemort's Horcruxes. This kit contains a replica of the elusive Horcrux locket and a book of photographic stickers highlighting elements of Harry, Ron, and Hermione's journey as they track down and destroy Slytherin's locket.

Once known to the world as the heroes Mr. Incredible and Elastigirl, Bob Parr and his wife, Helen, have been forced to adopt civilian identities and retreat to the suburbs to live "normal" lives with their three kids, Violet, Dash, and Jack-Jack. Itching to get back into action, Bob gets his chance when a mysterious communication summons him to a remote island for a top secret assignment Get ready for Disney/Pixar The Incredibles 2 by reliving the adventures of the best super family on the planet in the cinestory comic adaptation of the original movie.
