American efforts to develop the unstoppable nuclear-weapon delivery system, the intercontinental ballistic missile, the first weapons meant to deter an atomic holocaust rather than to be fired in anger. In a sweeping narrative, Sheehan brings to life a huge cast of some of the most intriguing characters of the cold war, including the brilliant physicist John Von Neumann, and the hawkish Air Force general, Curtis LeMay.

Here is the story of political prisoners finally freed in December 2014, after being held captive by the United States since the late 1990s. Through the 1980s and 1990s, violent anti-Castro groups based in Florida carried out hundreds of military attacks on Cuba, bombing hotels and shooting up Cuban beaches with machine guns. The Cuban government struck back with the Wasp Network—a dozen men and two women—sent to infiltrate those organizations. Global best-selling Brazilian author Fernando Morais narrates the riveting tale of the Cuban Five in vivid, page-turning detail, delving into the decades-long conflict between Cuba and the US, the growth of the powerful Cuban exile community in Florida, and a trial that eight Nobel Prize winners condemned as a travesty of justice. The “dean of Cold War historians” (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and

Our side had won, a verdict that was both decisive and irreversible. For the world's "indispensable nation," its "sole superpower," the future looked very bright. History, having brought the United States to the very summit of power and prestige, had validated American-style liberal democratic capitalism as universally applicable. In the decades to come, Americans would put that claim to the test. They would embrace the promise of globalization as a source of unprecedented wealth while embarking on wide-ranging military campaigns to suppress disorder and

enforce American values abroad, confident in the ability of U.S. forces to defeat any foe. Meanwhile, they placed all their bets on the White House to deliver on the promise of their Cold War triumph: unequaled prosperity, lasting peace, and absolute freedom. In *The Age of Illusions*, bestselling author Andrew Bacevich takes us from that moment of seemingly ultimate victory to the age of Trump, telling an epic tale of folly and delusion. Writing with his usual eloquence and vast knowledge, he explains how, within a quarter of a century, the United States

In America, communist threats are seen everywhere and a committee is formed in the nation's capital to investigate those threats. Larry Dane Brimmer follows the story of 19 men--all from the film industry--who are summoned to appear before the House of Representatives Committee on Un-American Activities. All 19 believe that the committee's investigations into their political views and personal associations are a violation of their First Amendment rights. When

Even fifteen years after the end of the Cold War, it is still hard to grasp that we no longer live under its immense specter. For nearly half a century, from the end of World War II to the early 1990s, all world events hung in the balance of a simmering dispute between two of the greatest military powers in history. Hundreds of millions of people held their collective breath as the United States and the Soviet Union, two national

ideological entities, waged proxy wars to determine spheres of influence—and millions of others perished in places like Korea, Vietnam, and Angola, where this cold war flared hot. Such a consideration of the Cold War—as a military event with sociopolitical and economic overtones—is the crux of this stellar collection of twenty-six essays compiled and edited by Robert Cowley, the longtime editor of *MHQ: The Quarterly Journal of Military History*. Befitting such a complex and far-ranging period, the volume's contributing writers cover myriad angles. John Prados,

Victor Davis Hanson offers “The Right Man,” his pungent reassessment of the bellicose air-power zealot Curtis LeMay as a man whose words were judged more critically than his actions. The secret war also gets its due in George Feiffer’s “The Berlin Tunnel,” which details the charismatic C.I.A. operative “Big Bill” Harvey’s effort to tunnel under East Berlin and tap Soviet phone lines—and the Soviets’ equally audacious reaction to the plan; while “The Truth About
