The Bedford Handbook carries on the Hacker tradition by responding to student writers' needs and to the way students need their handbook to work. Still a full-size handbook that doubles as a reference, the Handbook features clear, straightforward advice, hand-edited sentences, a user-friendly index, and a handy format. The eighth edition combines classic Hacker usability with a next-generation focus on academic writing and research and new navigation that helps students pull together advice and models for each assignment. Developed with the help of students and teachers at more than 35 colleges and universities, the new edition reflects the ways students write and revise in their composition course and beyond. What's more, The Bedford Handbook remains a portable size; it's still a comprehensive reference that's as easy to consult as it is to carry.

Good college writers are curious, engaged, reflective, and responsible. They read critically. They write with purpose. They tune into their audience. They collaborate and seek feedback. They know credible evidence makes them credible researchers. They revise. The Bedford Handbook, based on surveys with more than 1,000 first-year college students, fosters these habits and offers more support than ever before for college reading and writing. New writing guides support students as they compose in an ever-wider variety of genres, including multimodal genres. New reading support encourages students to become active readers. Retooled research advice emphasizes inquiry and helps writers cite even the trickiest digital sources confidently and responsibly. Best of all, the Handbook remains a trusted companion for students because it is accessible, comprehensive, and authoritative. Instructors benefit, too: A substantially revised Instructor's Edition includes Nancy Sommers's personal mentoring—more than 100 new concrete tips for teaching with the handbook. Finally, integrated digital content is easily assignable and helps students practice and apply the handbook's lessons. See what's in the LaunchPad
