13 June, 2017. Children, like adults, need to practice good habits for optimum health. Proper nutrition, safety in and out of the home, and healthy practices such as exercise and wearing sunscreen will decrease your child's chances of health problems in the present and future. Teaching and modeling such behaviors can help your child embrace them for life.

This book provides students with a comprehensive understanding of the nutrition, health, and safety needs of young children from birth through 8 years of age. The book is designed to give future teachers practical, applied, easy-to-understand information that will prepare them to serve young children in the family child care, childcare center, preschool and early primary school setting. Students will find the case scenarios woven throughout the chapters engaging and an effective means to transfer the learning of concepts to real life settings. This transfer of learning is reinforced by web video clips available at the MyEducationlab website that bring what students read and learn to life.

SAFETY, NUTRITION, AND HEALTH IN EARLY EDUCATION, Sixth Edition, uses theory, practical applications, and resources to prepare early childhood education students for a career in working with children from birth to age eight in multicultural and socioeconomically diverse early childhood settings. This text emphasizes healthy development, including environmental health and safety, active supervision, and how brain development can be affected by issues surrounding safety, nutrition, health, child maltreatment, and mental and emotional health. It also fully integrates NAEYC, DAP, and AAP/APHA professional standards throughout, and includes strategies for how to engage diverse families from various backgrounds and beliefs, and also those whose children have special needs. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Health, Safety, and Nutrition Activities A to Z presents a detailed lesson plan format of open-ended activities. Users will enjoy the activities as they explore different options to live a healthy, safe, and nutritious life. The activities are easy-to-understand and follow. Each section will assist users in finding activities for a theme based curriculum, to incorporate a letter of the week, or provide a spur of the moment filler activity.
