Honda Parts House is owned and operated by Babbitt's Online. This site is dedicated to selling OEM Honda motorcycle parts, ATV parts and watercraft parts. You can easily find the parts through our parts diagrams after finding the appropriate category above. Search By Part Number.

In 1999, Admiral Thomas Moorer, a former chairman of the Joint Chiefs of Staff, charged that China plotted to take over the Panama Canal and use the area to launch a nuclear attack on the United States. In the U.S. Senate, Trent Lott, the then-Republican Senate Majority Leader, expressed concern that the Chinese could deny U.S. ships passage. Now, a CIA informant in Panama with possible information on the Chinese take-over has been killed and the agency has to again look at the potential Communist threat. It steps up its investigation by sending veteran CIA agent Jack Dallas to find out the truth. A former Navy diver, Dallas has to dive deep into the canal and the Hong Kong company that runs the canal ports. His investigation leads him to a prominent businessman in Shanghai, bankers in Monaco and Russian mobsters in Miami before finding out the stunning truth and racing to prevent a major catastrophe in the canal.

An award-winning scientist offers his unorthodox approach to childrearing: “ Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions ” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you ' re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley ' s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on
