In The Ultimate Guide to Psychic Abilities, best-selling author and psychic Karen Frazier introduces readers to the different types of psychic ability and shows how they can be developed and used in one's life for personal empowerment.

Have you ever had the privilege of interacting with some individuals you would only refer to as strange, owing to the superhuman abilities they appear to have? You must have heard of people with special abilities such as those of predicting the future, conversing with spirits, knowing hidden things no one would normally know, and the like. Or perhaps you are one of those people and you either knowingly or unknowingly have special powers that have not fully manifested in you for whatever reason it might be. Whether you believe psychic powers are real or a hoax, there is so much out there that science cannot explain since science is one of the biggest challengers of these supernatural gifts. However, it is important to consider whether science is the best tool to use to measure or even prove the existence of these powers and abilities since none of these powers fall within the boundaries of conventional science. Furthermore, fraudsters who saw an opportunity for financial and other personal gains have been exposed to be the frauds they are, and such revelations have not been of help to the psychic community. However, regardless of how many fake psychics are out there, their numbers do not prove that this age-old knowledge and abilities are nothing but human imaginations. The psychic community claims that every individual out there has more than the conventional common senses, with the other special senses manifesting in people differently and to different degrees. Experienced psychics claim that everyone has a psychic power, and all an individual needs to do is discover it, develop it, and exercise it in the best way he or she can. The objective of writing this book is to shed light on the issue of psychic powers, telepathy, aura reading, and the interpretation of dreams. All these are strange to the mind bound by scientific reasoning, but that does not mean all these are false beliefs. Through reading this book, a beginner will learn to awaken his or her psychic abilities, develop them, and find a sense of self-worth and spirituality. This book covers the following areas in detail: What is psychic power? Reasons people believe in psychic powers What does science say about psychic power? Signs you might have Psychic powers Categories/Types of psychic powers What is telepathy? Types of telepathy Steps to developing telepathy Relationship between telepathy and science Tips to awaken your psychic abilities Top reasons to awaken and develop psychic abilities Symptoms and dangers of Third eye awakening Most common ways to develop psychic abilities Tapping into your psychic abilities Psychic meditation guide Practices that will improve your psychic connection What is an aura and how does someone read it Aura Colors and their meanings Common dreams and their interpretation Dream analysis and how it works Would you like to know everything about psychic development? A lot of people think that tapping into psychic ability is all about voodoo, witchcraft, or a belief in something supernatural. However, that's not at all an accurate depiction of what it really is. Psychic ability is largely about believing in the power of the mind and the power to be in control of your own destiny. It's about the constant and unerring search for truth through the use of your very own intuition and self-guidance system. This goes right back to the very root of what intuition is, which is simply learning to follow your own truth by trusting your gut instincts. This book is designed to help you develop your intuition and refine your psychic abilities. We're also going to talk a little bit about mind reading, which is really just another way of tapping into your intuition and psychic abilities when it comes to reading other people. So if you're ready to make some serious progress in discovering the inner psychic that already exists within yourself, then let's get started!

Psychic power is an ability to perceive, that which is beyond the normal human senses and through extrasensory perception. Humans have five senses: sight, smell, taste, sound, and touch. Although some call psychic abilities the sixth sense, people with psychic abilities generally have over-exaggerated human senses. An empath is a person with the special gift of perceiving the emotions and feelings of other people as though they were their own without even trying. They are naturally tuned in to the energies floating around them. If an empath walks into a room and sits next to a person who's quietly mourning, the empath will pick up on the sorrow and experience it as though it were their own. An empath who lacks awareness of their gift can be deeply conflicted, as they cannot tell apart their own feelings from those of others. Humans are born with psychic senses or psychic power but because this ability is not encouraged to grow, people tend to forget about it. Those who continue to pursue this power tap into it mostly when they grow up and begin looking into their spirituality or when they have a desire to connect with a higher being. A number of people can experience their psychic abilities on a day-to-day basis. Others cannot comprehend the weird senses they get while others chose to give psychic power other names such as intuition or gut feeling. If life is a resume, then psychic abilities can be considered valuable points in it. Even so, it's not their existence that makes them important, but the fact that you can help other people by using them. It is like having a beautiful horse, one of a kind, but savage, that can't be ridden. That horse becomes truly special when you succeed in domesticating it and start using it for your purposes. The goal of this book is simple To help you understand the empathic nature much better and give you clear-cut techniques on how to shield your energy from harsh environments and also begin realizing your psychic potential and become confident and empowered as you journey into the world of psychic power. Other things You will also learn in the book include:
- How to Develop your psychic abilities - Aura Reading - Spirit Guides - What is an empath and how to recognize it? - How to recognize if you are an empath - Understanding the potentials of your energy and abilities - How to stop absorbing stress and draining of energy - Get into intimate relationships - How to find the right work that feeds you - The ways of developing yourself as an empath And more than 3 hours of guided meditation for you!
