Imagine waking one day with a new face and no memory, an opportunity to pick a new name and start a new life; a clean slate. Orphaned as children, separated for 22 years, Melissa is intent on finding her identical twin, Marissa; however Marissa is now Mariah and not who she used to be. Melissa's search brings her to Los Angeles, crossing paths with Tyron, the only person aware of the truth, a person with immoral intent. As Melissa searches for her twin and Mariah searches for who she was, they are both faced with first time romances. Their brief crossing of paths and wisps of twin psychic connections provides one hope, and the other confusion. Tyron hatches a plan to bring them together, for a price that includes more than just their money. Lost & Forgotten is story of wealth and poverty for far from pretty identical twin sisters as one meets evil in her search for her other half, and the other struggles to start a new life and find out who she was.

"America's best novelist" (The Denver Post) brings back one of his most fascinating characters—Texas sheriff Hackberry Holland, cousin to lawman Billy Bob Holland—in this heart-pounding bestseller. In a heat-cracked border town, the bodies of nine illegal aliens—women and girls, killed execution-style—are unearthed in a shallow grave.

Haunted by a past he can't shake and his own private demons, Hack attempts to untangle the grisly case, which may lead to more bloodshed. Damaged young Iraq vet Pete Flores, who saw too much before fleeing the crime scene, and his girlfriend, Vikki Gaddis, are running for their lives. Sorting through the lowlifes who are hunting down Pete, and with Preacher Jack Collins, a Godfearing serial killer for hire, in the mix, Hack is caught up in a terrifying race for survival—for Pete, Vikki, and himself.

The Holland boys are back in town. Billy Bob and Hackberry Holland are two hard-nosed Texas lawmen who just happen to be cousins. This boxed set includes *In the Moon of Red Ponies*, a Billy Bob Holland classic, and *Rain Gods*, where Hackberry Holland makes his full-length debut, plus a sneak peek at its sequel, *Feast Day of Fools*. New York Times bestselling author James Lee Burke is a rare winner of two Edgar Awards and in 2009 was named a Grand Master by the Mystery Writers of America. In *In the Moon of Red Ponies* Former Texas Ranger Billy Bob Holland has hardly settled his family and his business in their new home in Montana when trouble finds him once again. His first client in Missoula is Johnny American Horse, a young Native American activist charged with the murder of two mysterious men who seem to have recently tried to kill Johnny themselves, or at least scare him off his political causes. As Billy

Bob investigates, he discovers a web of intrigue surrounding the case and its players—Johnny's girlfriend Amber Finley; Darrel McComb, a Missoula police detective who's obsessed with Amber; and Seth Masterson, an enigmatic federal agent—and a greater danger that threatens himself and his whole family. Rain Gods Hackberry Holland became sheriff of a tiny Texas town near the Mexican border hoping to leave certain things behind: his checkered reputation, his haunted dreams, and his obsessive memories of his late wife, Rie. But the discovery of the bodies of nine illegal aliens, machine-gunned to death and buried in a shallow grave, soon makes it clear he won't escape so easily. The key to the case seems to lie with Pete Flores, a damaged young Iraq veteran, and his girlfriend Vikki Gaddis, who have disappeared. For Hack and Deputy Sheriff Pam Tibbs to untangle the threads of this grisly case, they'll have to find Pete and Vikki before the FBI, Border Patrol, and a host of cold-blooded killers—including the enigmatic Preacher Jack Collins—catch up to them... Feast Day of Fools (excerpt) Still mourning the loss of his cherished wife, and locked in a perilous almost-romance with his much younger deputy, Hackberry Holland feeds off of the deeds of evil men to keep his own demons at bay. And when a local drunk named Danny Boy Lorca comes to town dead sober, telling gruesome tales of torture and murder and begging to be locked in the drunk tank, it

becomes clear that the desert holds all the evil Hack can handle. It seems the ruthless serial killer Preacher Jack Collins is alive and well in the harsh Texas wilderness—alongside illegal aliens, federal agents, and a mysterious Chinese woman whose steely demeanor and aristocratic beauty remind Hack of his deceased wife, and who may or may not be drawing him into a deadly trap.

\*A novel by the author of the viral essay sensation "The Crane Wife"\* When Nolan Grey receives news that his father, a once-prominent biologist, has drowned off Leap's Island, he calls on Elsa, his estranged older half-sister, to help. This, despite the fact that it was he and Elsa who broke the family in the first place. Elsa and Nolan travel to their father's field station off the Gulf Coast, where a group called the Reversalists obsessively study the undowny bufflehead, a rare duck whose loss of waterproof feathers proves, they say, that evolution is running in reverse. On an island that is always looking backward, it's impossible for the siblings to ignore their past, and years of family secrecy threaten to ruin them all over again. Yet, despite themselves, the Greys urgently trek the island to find the so-called Paradise Duck, their father's final obsession, all the while grappling with questions of nature and nurture, intimacy and betrayal, progress and forgiveness.

John Locke is a homeless veteran. A former Navy SEAL, John has many problems, but they're about to get a lot worse. When a lady in an SUV offers him a job, he has no idea of the world she is opening up for him. Such a truly large world.

This book examines shared intuitive notions of justice among laypersons and compares the discovered principles to those instantiated in American criminal codes. It reports eighteen original studies on a wide range of issues that are central to criminal law formulation.

The German occupation of France from 1940 to 1945 presented wrenching challenges for the nation's artists and intellectuals. Some were able to flee the country; those who remained—including Gide and Céline, Picasso and Matisse, Cortot and Messiaen, and Cocteau and Gabin—responded in various ways. This fascinating book is the first to provide a full account of how France's artistic leaders coped under the crushing German presence. Some became heroes, others villains; most were simply survivors. Filled with anecdotes about the artists, composers, writers, filmmakers, and actors who lived through the years of occupation, the book illuminates the disconcerting experience of life and work within a cultural prison. uncovers Hitler's plan to pacify the French through an active cultural life, and examines the unexpected vibrancy of opera, ballet, painting, theater, and film in both the Occupied and Vichy Zones. In view of the longer-term goal to supplant French with German culture, Spotts offers moving insight into the predicament of French artists as they fought to preserve their country's cultural and national identity.
