"Parentology is brilliant,
jaw-droppingly funny, and
full of wisdom...bound to
change your thinking about
parenting and its
conventions" (Amy Chua,
author of *Battle Hymn of the
Tiger Mother*). If you're
like many parents, you might
ask family and friends for
advice when faced with
important choices about how
to raise your kids. You
might turn to parenting
books or simply rely on
timeworn religious or
cultural traditions. But

doctorate scientist and full-
blown nerd, needed
childrearing advice, he

Turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear

Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of
