In The Hands Of Taliban

"In the hands of Taliban: An extraordinary story" This is what she named her book. But let me tell you its not an extraordinary book at all. The only reason i read it was because i wanted to know how she was treated by Talibans. Taliban's faith in Allah and their "hospitality" with a prisoner is something you hardly see in wars of this age.

In the Hands of the Taliban: Her Extraordinary Story by ...

A foreign or a western woman in Afghanistan under Taliban rule who remarkably tells the world in her beautiful words that they are just humans like you and me. Think the Talibhan deserve a chance, and Yvonne Ridley tells how they really are. Gives a true first hand account of what has happened in Afghanistan. Would definitely recommend it to ...

Yvonne Ridley's terrifying 10 day detainment by the Taliban regime in Afghanistan struck a chord that continues to resonate around the world. At a time when the world was plunged into a state of unprecedented chaos and uncertainty following the terrorist atrocities in the US, Yvonne faced the ordeal of her life. Captured by the Taliban as she attempted to cross the Afghan border to report on the outbreak of war for the Sunday Express, Yvonne found her life hanging in the balance in the hands of the most reviled regime in the world. For Yvonne, an unexpected survival instinct kicked in that saw her face her captors not with fear, but with anger. Her courage and gutsiness, and that of her family, prompted the Taliban to release her, glad to be rid of such a so-called 'difficult' woman. This is Yvonne's full, true story. From her capture, to the ordeal she endured at the hands of the Taliban, to her eventual release; she offers a unique perspective into a way of life that remains a mystery to many. The friendships she formed with her fellow hostages, her feelings about her captors and their beliefs, and her discoveries -- many of which surprised and baffled her -- are all exclusively revealed in detail. Yvonne's story is a truly compelling and inspirational read.

"Yvonne's plight hit the international headlines and her intrepid reporting style roused controversy and concern for her wellbeing. Here she divulges the details of her alarming experiences in the hands of the most reviled and elusive regime in the world. She offers a unique insight into life as an undercover journalist, the Taliban's way of operating, their beliefs, and describes her fellow hostages, war in Afghanistan and her own inner conflict between her family and her job."--BOOK JACKET.

This is the autobiography of the former Taliban Ambassador to Pakistan who negotiated with the US after 9/11 and spent time in Guantanamo. It is the first inside account of what motivates ordinary Afghans to join the Taliban.

The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military became mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains startling revelation after revelation from people who played a direct role in the war, from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to make time to meet with him. Secretary of Defense Donald Rumsfeld admitted he had “no visibility into who the bad guys are.” His successor, Robert Gates, said: “We didn't know jack shit about al-Qaeda.” The Afghanistan Papers is a shocking account that will supercharge a long overdue reckoning over what went wrong and forever change the way the conflict is remembered.

In autumn 2001, U.S. and NATO troops were deployed to Afghanistan to unseat the Taliban rulers, repressive Islamic fundamentalists who had lent active support to Osama bin Laden's Al-Qaeda jihadists. The NATO forces defeated and dismantled the Taliban government, scattering its remnants across the country. But despite a more than decade-long attempt to eradicate them, the Taliban endured—regrouping and reestablishing themselves as a significant insurgent movement. Gradually they have regained control of large portions of Afghanistan even as U.S. troops are preparing to depart from the region. In his authoritative and highly readable account, author Hassan Abbas examines how the Taliban not only survived but adapted to their situation in order to regain power and political advantage. Abbas traces the roots of religious extremism in the area and analyzes the Taliban's support base within Pakistan's Federally Administered Tribal Areas. In addition, he explores the roles that Western policies and military decision making—not to mention corruption and incompetence in Kabul—have played in enabling the Taliban's return to power.

Following three Afghans - a Taliban commander, a US-backed warlord and a housewife trapped in the middle of the fighting - through years of US missteps, this dramatic narrative reveals the workings of America's longest war and the truth behind its prolonged agony. 25,000 first printing.

Inspired by a lecture in Barcelona given by a leading member of RAWA (Revolutionary Association of the Women of Afghanistan), the radical feminist women's group who work under cover as the only real opposition to the Taliban, Ana Tortajada, an experienced Spanish journalist, decided to make a trip to Afghanistan in the summer of 2000. She wanted to learn more about the lives of Afghan women, to visit their homes and the places where they worked as clandestine teachers and doctors, to meet their families, to listen to their stories, and see how they lived under the veil. Tortajada's journey takes her from the slums and refugee camps in Peshawar, along the Pakistani-Afghan border, to Kabul. She writes about the revolutionary efforts of RAWA, the genocidal campaign of the Taliban to extinguish the Hazara ethnicity in Afghanistan, the failure of the international community to ameliorate the alarming situation of Afghan refugees, and offers a first-hand account of the atrocities Afghan women have been suffering at the hands of the Taliban. The Silenced Cry is not only timely, but also compelling. With extremely evocative and poetic writing, Tortajada conveys the beauty of the landscape, and the wonderfully inspiring optimism of the people. In heart-wrenching detail, we see just how debilitated and wretched the conditions were, yet we also see people who still fought for freedom, democracy, and basic human rights. Candid and compassionate, never condescending or pitying, The Silenced Cry is a human, approachable, and provocative look at the best and worst in the human spirit.

Understand the complexities of the most lethal insurgent group of America's longest war—the Taliban. • Provides insights from an author with academic training in politics and economics as well as a 30-year defense intelligence community background, including serving as an Army analyst in Afghanistan • Presents information recently obtained under the Freedom of Information Act • Analyzes the tribal, religious, political, and international elements of the greater Taliban problem

With the vague intention of winning hearts and minds in Afghanistan, the US government has mismanaged billions of development and logistics dollars, bolstered the drug trade, and dumped untold millions into Taliban hands. That is the sobering message of this scathing critique of our war effort in Afghanistan. According to this book, America has already lost the war. While conducting extensive research and fieldwork in Afghanistan ' s war zones, a drumbeat of off-the-record and offhand remarks pointed the author to one conclusion: "We blew it." The sentiment was even blazoned across a US military fortification, as the author saw at Forward Operating Base Mehtar Lam in insurgency-wracked Laghman Province: "I glanced over at a concrete blast barrier while waiting for a helicopter," Wissing says. "Someone had spray-painted in jagged letters: ' The GAME. You Lost It. ' " The author ' s vivid narrative takes the reader down to ground level in frontline Afghanistan. It draws on the voices of hundreds of combat soldiers, ordinary Afghans, private contractors, aid workers, international consultants, and government officials. From these contacts it became glaringly clear, as the author details, that American taxpayer dollars have been flowing into Taliban coffers, courtesy of scandalously mismanaged US development and counterinsurgency programs, with calamitous military and social consequences. This is the first book to detail the toxic embrace of American policymakers and careerists, Afghan kleptocrats, and the opportunistic Taliban. The result? US taxpayers have been footing the bill for both sides of a disastrous Afghanistan war.

In this powerful book, David B. Edwards traces the lives of three recent Afghan leaders in Afghanistan's history--Nur Muhammad Taraki, Samiullah Safi, and Qazi Amin Waqad--to explain how the promise of progress and prosperity that animated Afghanistan in the 1960s crumbled and became the present tragedy of discord, destruction, and despair. Before Taliban builds on the foundation that Edwards laid in his previous book, Heroes of the Age, in which he examines the lives of three significant figures of the late nineteenth century--a tribal khan, a Muslim saint, and a prince who became king of the newly created state. In the mid twentieth century, Afghans believed their nation could be a model of economic and social development that would inspire the world. Instead, political conflict, foreign invasion, and civil war have left the country impoverished and politically dysfunctional. Each of the men Edwards profiles were engaged in the political struggles of the country's recent history. They hoped to see Afghanistan become a more just and democratic nation. But their visions for their country were radically different, and in the end, all three failed and were killed or exiled. Now, Afghanistan is associated with international terrorism, drug trafficking, and repression. Before Taliban tells these men's stories and provides a thorough analysis of why their dreams for a progressive nation lie in ruins while the Taliban has succeeded. In Edwards's able hands, this culturally informed biography provides a mesmerizing and revealing look into the social and cultural contexts of political change.
