This book includes a set of rigorously reviewed world-class manuscripts addressing and detailing state-
of-the-art research projects in the areas of Industrial Electronics, Technology, Automation,
Telecommunications and Networking. The book includes selected papers from the conference proceedings of
the International Conference on Industrial Electronics, Technology, Automation (IETA 2006) and
International Conference on Telecommunications and Networking (TeNe 06).

From traditional topics that form the core of industrial electronics, to new and emerging concepts and technologies, The Industrial Electronics Handbook, in a single volume, has the field covered. Nowhere else will you find so much information on so many major topics in the field. For facts you need every day, and for discussions on topics you have only dreamed of, The Industrial Electronics Handbook is an ideal reference.
