This Updated Edition features and incorporates the 2005 FASB key accounting standards that have been updated since the original publication of "Intermediate Accounting, 11th Edition." feature that demonstrates to readers how international financial reporting standards apply to the main topics of the chapter. \* Updated Appendix 24B provides a complete discussion of the international accounting and reporting environment, with the latest convergence developments. \* Quick-hitting International Insights in the margins compare or contrast international standards with a point under discussion in the nearby text. \* New end-of-chapter Questions in each chapter focus on international standards introduced in the chapter. These questions are marked with an icon for easy reference. \* International Reporting Cases ask readers to analyze financial statements of international companies and apply analysis with the application of international standards. Updated Fair Value discussions: Fair value has been expanded at both the introductory level in Chapter 2 and in subsequent chapters where appropriate. The more thorough discussion in Chapter 2 lays the groundwork for expanded discussions in later chapters. The result is a solid understanding of fair value in the accounting profession today. FASB Codification: This edition integrates the new FASB Codification throughout. References to the accounting pronouncements replaced by a numbering system in each chapter linked to the new Codification. A list of Codification references at the end of each chapter links the bracketed numbers from the text to the Codification; this list also includes a reference to the preceding literature, for easing the transition to the new system. In addition, a handful of quick exercises in each chapter give readers opportunities for practice and simple research in the Codification. Revised End-of-Chapter Material: Names, numbers, and dates in all end-of-chapter materials, including brief exercises and problems, have been changed.
