### Phenomenon

Owning an investment fund is the easiest and most convenient way for investors to put their money to work in the world's financial markets. Yet only a handful of people really seem to understand how to make the most of the opportunity that funds offer. Too many pick the wrong fund in the wrong market at the wrong time - a sure-fire recipe for disappointment. In this important new book, an award-winning manager at one of the UK's best fund management firms explains in simple language what it takes to buy and sell investment funds successfully - and how to avoid the common mistakes that so often condemn fund investors to poor results. John Chatfeild-Roberts, head of the fund of funds team at Jupiter Asset Management, is responsible for sifting through the thousands of

funds that are open to UK investors and hand-picking the best 10 - 15 for his clients' portfolios. The Jupiter Merlin range of funds has won a string of industry awards for their consistent performance. Now, in *Fundology - The Secrets of Successful Fund Investing*, he explains in detail how to set about becoming an expert fund investor - what to do and (just as importantly) what not to do. While he concentrates on unit trusts and open-ended investment companies (OEICs), his specialist area, many of the principles outlined here apply equally well to other types of fund. The topics covered include: - Why funds are worth considering - How unit trusts and OEICs work - How to pick the best managers - The truth about costs - The trouble with index funds - Which funds the Jupiter team own (and why) - The most common mistakes that investors make

Easy to read and outspoken in places, *Fundology* is a must read for

anyone interested in knowing how to get the most out of their investments. Knowing how the experts go about choosing funds can only increase your chances of improving your own success rate.
