novel—a “fantastic, sinister tale of danger and treachery” (RT Book Reviews). GhostWalker Wyatt Fontenot knows the price he paid for the secret military experiments that gave him his special catlike abilities. After all, he left his bayou home a healer and came back a killer. While Wyatt and his GhostWalker brother Gator may have known exactly the sort of game they were getting into, Wyatt never anticipated where it would lead—or to whom. The swamps hold many mysteries, but few are as sinuously seductive as Le Poivre de Cayenne. The woman the locals call Pepper is every bit as enigmatic as the three little girls she’s desperately trying to protect. From what, Wyatt is soon to discover. Right now Pepper needs a man like Wyatt. Passionately. But her secrets are about to take them both deeper into the bayou than either imagined—where desire is the deadliest poison of all. INCLUDES A BONUS EXCERPT FROM CHRISTINE FEEHAN’S GHOSTWALKER NOVEL, NIGHT GAME

Scenography – the manipulation and orchestration of the performance environment – is an increasingly popular and key area in performance studies. This book introduces the reader to the purpose, identity and scope of scenography and its theories and concepts. Settings and structures, light, projected images, sound, costumes and props are considered in relation to performing bodies, text, space and the role

of the audience. Concentrating on scenographic developments in the twentieth century, the Introduction examines how these continue to evolve in the twenty-first century. Scenographic principles are clearly explained through practical examples and their theoretical context. Although acknowledging the many different ways in which design shapes the creation of scenography, the book is not exclusively concerned with the role of the theatre designer. In order to map out the wider territory and potential of scenography, the theories of pioneering scenographers are discussed alongside the work of directors, writers and visual artists.

This activity-based program helps special-needs students achieve success and confidence in four content areas: science, social studies, math, and communication arts. Students learn to identify cause-and-effect relationships, identify main ideas and details, compare and contrast, summarize ideas, ask questions, make judgments, and more.
