A JCB telescopic handler has excellent rearward visibility; the high boom profile and pivot, meanwhile, give operators a good view underneath the boom. There's a full set of side and rear-view mirrors for all-around visibility and safety compliance. A reverse alarm is a standard feature on all JCB telehandlers.

over the world. From the first trailer, produced from post-war scrap metal in 1945 to the latest award-winning electric mini-digger - the story of JCB is told through a remarkable collection of images from the company's own archives.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Learn everything you need to know about the Ferguson MF 35 and TO35! Featuring step-by-step instructions for weekly checks, operator maintenance, engines, cooling and fuel systems, transmissions, brakes, hydraulics, and so much more, this user-friendly restoration service manual goes back to the basics, detailing a wide range of topics so you can understand your tractor machinery from the inside out! Also included are more than 650 photographs, helpful charts for service schedules, torques, data specs, tool lists, and troubleshooting, and even a buying guide! Author Chris Jaworski is a technical writer, Tractor & Machinery magazine and a restoration enthusiast. For owners involved in servicing, repairs, or restoration of the Massey Ferguson MF 35 or TO35, this crystal-clear guide will help you enjoy getting the work done quickly, efficiently, and correctly!

In 1947 Vaino J. Holopainen (Waino) and Roy E. Handy Jr. of the small town of Hubbardston, Massachusetts developed the world's first backhoe. This revolutionary invention that could dig and load by swinging side to side, was also the world's first all hydraulically actuated and controlled machine for digging. Vaino and Roy then formed Wain-Roy Corporation. Their grassroots contribution to the earth moving industry lead to the development of twenty-six major backhoe related break-through designs, including the tractor loader backhoe, which formed the worldwide multi-billion-dollar industry that we know today. The amazing story of Wain-Roy and the invention of the backhoe is one of inspiration, struggle, genius, success, theft and failure. Credit for the backhoe is often given to other larger outfits who no-doubt fueled the rise of its widespread use. Few people alive still remember the greatest triumphs and failures of the true inventors and innovators of first backhoe and the first all-hydraulic digger. Authors Lee Horton and Dave Willens, two engineers from Central Massachusetts, wanted to capture this fascinating history before it was lost to time.

This book contains information necessary to the proper handling and care of your Ford car. Read it carefully—particularly the instructions on lubrication, the cooling system, care of battery, etc., which are absolutely necessary to economical and satisfactory operation. Your car is a splendid piece of machinery. If properly cared for, it will give you years of satisfactory service at little cost. When repairs are needed, we recommend having the work done by an authorized Ford dealer. They are provided with special service equipment. Furthermore they are interested, more than any one else, in your personal satisfaction with the car. Let experienced mechanics make repairs or adjustments. Your car is too valuable a piece of machinery to place in unskilled hands. Expert workmanship is just as essential in servicing your car as it is in building it.

The successful development, production and commercial launch of a stream of new and/or modified products has become one of the key factors in creating competitive advantage. Rapidly reducing development lead times and product life cycles, coupled with the shift from mass production to mass customisation are all increasing the pressure on product development activities and processes. This is leading companies to adopt a 'right first time' philosophy together with the constant review and improvement of their new product environment. New product development (NPD) performance needs to be constantly measured and action taken to improve current performance. Improvements to NPD activities and processes can be radical or incremental. They can be based on the review of past performance or the comparison of successful and less successful products. Benchmarking against the best practice in other companies can be used to advantage. Intuition also has its place. If you are interested in all or any of these improvement methodologies, this workbook is for you. The workbook provides information and a structured framework that allows a company to tailor NPD performance measurement and improvement methodologies to their particular circumstances. Part I introduces relevant 'theory' relating to NPD trends, strategy and performance evaluation and improvement. Part II covers the practical application of NPD strategy and performance evaluation/improvement using action based flow-charts ('animated' versions of the flow-charts are included on the CD-ROM). Part III covers the use of a structured NPD assessment tool and methodology presented in paper and CD-ROM formats. Relevant case studies and useful contacts and addresses are also included.
