"This book brings education together with hands-on participation. Each of the 10 units introduces one aspect of worship - openings and closings, public prayer, visual art, and others - and offers curriculum modules that not only teach youth about it, but also put it into practice. Each unit includes helpful ideas for times when youth may be in charge of a service or involved in an element of worship. As a "source book," this volume is meant to be used in a modular way, allowing you to pick which elements are most relevant to the needs and structure of your group. While written with Mennonite youth in mind, the material can easily be adapted for intergenerational and ecumenical settings as well." --Back cover.
