The autobiography of Paramahansa Yogananda (1893 - 1952) details his search for a guru, during which he encountered many spiritual leaders and world-renowned scientists. When it was published in 1946 it was the first introduction of many westerners to yoga and meditation. The famous opera singer Amelita Galli-Curci said about the book: "Amazing, true stories of saints and masters of India, blended with priceless superphysical information-much needed to balance the Western material efficiency with Eastern spiritual efficiency-come from the vigorous pen of Paramhansa Yogananda, whose teachings my husband and myself have had the pleasure of studying for twenty years."

We live in an age of fibreglass but we're still looking for the sacred values of life. In this second anthology of writings and talks, Yogananda addresses the deepest needs of the human heart.

The Science of Religion by Paramahansa Yogananda arrives by analysis at inner happiness or bliss as the goal that binds all men.

A ""Kriya Yogi's Kundalini Awakening in the Himalayas"" offers readers a deep trek not only to the Himalayas but to an extraordinary woman's spiritual awakening. Her initial aspiration to learn mountaineering had turned into a spiritual quest to attain enlightenment. She began reading books on quantum physics and metaphysics, and found no answers, before eventually stumbling upon Autobiography of a Yogi, by Paramahansa Yogananda (1893-1952), where she learned that the path of Kriya Yoga had been given to humanity to realize our immortality through self-realization and the evolution of consciousness and got initiated into this science by Baba Paramahansa Hariharananda Giri, a direct disciple of Sri Yuktेशwar and a peer to Yogananda. She experienced her final Awakening, where she became ONE with the Universe at the cave of Mahavatar Babaji that Yogananda cites in his book. She took the treacherous Siddhartha Road to Awakening that spanned over 25 years of her various spiritual practices
