According to Levinson, the catchphrase "one more thing" was conceived when he and Link were writing the play: "we had a scene that was too short, and we had already had Columbo make his exit. We were too lazy to retype the scene, so we had him come back and say, 'Oh, just one more thing.'

"Just One More Thing..." When reviewing asylum applications of late, I find myself thinking of the popular 1970s TV show "Columbo." After interviewing a suspect, it's title character, a disheveled homicide detective, would famously stop on his way out to ask "just one more thing."

An award-winning actor takes readers behind the scenes into his professional and private life--starting in Hartford, where he worked as a management analyst for the Connecticut State Budget Bureau through an earlier attempt to work with the CIA, and ultimately acting.

New York Times Bestseller A startlingly original debut from the actor, writer, director, and executive producer hailed as "a gifted observer of the human condition and a very funny writer capable of winning that rare thing: unselfconscious, insuppressible laughter" (The Washington Post). A boy wins a \$100,000 prize in a box of Frosted Flakes—only to discover that claiming the winnings might unravel his family. A woman sets out to seduce motivational speaker Tony Robbins—turning for help to the famed motivator himself. A new arrival in Heaven, overwhelmed with options, procrastinates over a long-ago promise to visit his grandmother. We meet Sophia, the first artificially intelligent being capable of love, who falls for a man who might not be ready for it himself; a vengeance-minded hare, obsessed with scoring a rematch against the tortoise who ruined his life; and post-college friends who try to figure out how to host an intervention in the era of Facebook. Along the way, we learn why wearing a red T-shirt every day is the key to finding love, how February got its name, and why the stock market is sometimes just . . . down. Finding inspiration in questions from the nature of perfection to the icing on carrot cake, *One More Thing* has at its heart the most human of phenomena: love, fear, hope, ambition, and the inner stirring for the one elusive element just that might make a person complete. Across a dazzling range of subjects, themes, tones, and narrative voices, the many pieces in this collection are like nothing else, but they have one thing in common: they share the playful humor, deep heart, sharp eye, inquisitive mind, and altogether electrifying spirit of a writer with a fierce devotion to the entertainment of the reader.

The partner we no longer trust, the boss we fear, the family member we cannot tolerate. Stories exploring the psychological effect of modern life. Ordinary people count the cost of 'just one more thing.'

Brad Brown is back with a second set of stories just as entertaining and fascinating as his first book. Whether he's escaping the personal vendetta of a bull named Killer (I was a matador without a cape), entangled with a rabid cow, chasing a stallion (well, not quite, anymore...) through downtown Bangor, performing heart surgery in an arena, or having a close encounter?while airborne?with a B-52 bomber, this vet regards it all as part of a (long) working day.

"If Singletree's only florist didn't deliver her posies half-drunk, I might still be married to that floor-licking, scum-sucking, receptionist-nailing hack-accountant, Mike Terwilliger." Lacey Terwilliger's shock and humiliation over her husband's philandering prompt her to add some bonus material to Mike's company newsletter: stunning Technicolor descriptions of the special brand of "administrative support" his receptionist gives him. The detailed mass e-mail to Mike's family, friends, and clients blows up in her face, and before one can say "instant urban legend," Lacey has become the pariah of her small Kentucky town, a media punch line, and the defendant in Mike's defamation lawsuit. Her seemingly perfect life up in flames, Lacey retreats to her family's lakeside cabin, only to encounter an aggravating neighbor named Monroe. A hunky crime novelist with a low tolerance for drama, Monroe is not thrilled about a newly divorced woman moving in next door. But with time, beer, and a screen door to the nose, a cautious friendship develops into something infinitely more satisfying. Lacey has to make a decision about her long-term living arrangements, though. Should she take a job writing caustic divorce newsletters for paying clients, or move on with her own life, pursuing more literary aspirations? Can she find happiness with a man who tells her what he thinks and not what she wants to hear? And will she ever be able to resist saying one . . . last . . . thing?

And Another Thing... will be the sixth novel in the now improbably named Hitchhiker's Guide to the Galaxy trilogy. Eight years after the death of its creator, Douglas Adams, the author's widow, Jane Belson, has given her approval for the project to be continued by the international number one bestselling children's writer, Eoin Colfer, author of the *Artemis Fowl* novels. Douglas Adams himself once said, 'I suspect at some point in the future I will write a sixth Hitchhiker book. Five seems to be a wrong kind of number, six is a better kind of number.' Belson said of Eoin Colfer, 'I love his books and could not think of a better person to transport Arthur, Zaphod and Marvin to pastures new.' Colfer, a fan of Hitchhiker since his schooldays, said, 'Being given the chance to write this book is like suddenly being offered the superpower of your choice. For years I have been finishing this incredible story in my head and now I have the opportunity to do it in the real world.' Prepare to be amazed...
