This book is a printed edition of the Special Issue "Sustainable Agriculture–Beyond Organic Farming" that was published in Sustainability

Leah Trachtman-Palchan was an ordinary woman who lived an extraordinary life. This was a life of migration, dissent, exile and survival. Born in the final years of Tsarist Russia, her family was forced to leave their small town following the repeated pogroms of the Civil War era. A two year voyage followed, bringing them all to British Mandate Palestine in 1921. Here what seems like a typical Jewish story of migration from Eastern Europe in the early twentieth century took an unexpected turn. As a teenager, Leah

joined the Communist movement in Palestine - illegal under the British Mandate. She was arrested, imprisoned and eventually deported by the British to the Soviet Union. This memoir is filled with colourful, and sometimes harrowing, sketches of the people who passed through her life during the era of Stalin's Great Purges and the evacuation of factories to Siberia during World War II. Shedding new light on both Mandate Palestine and the Jewish experience in Soviet Moscow, this book reveals the remarkable story of a woman living through some of the most pivotal events of twentieth-century history.

This book presents a rich compilation of real-world cases on digitalization, the goal being to share first-hand insights from respected organizations and to make digitalization more tangible. As virtually every economic and societal sector is now being challenged by emerging technologies, the digital economy is a highly volatile, uncertain, complex and ambiguous place – and one that holds substantial challenges and opportunities for established organizations. Against this backdrop, this book reports on best practices and lessons learned from organizations that have succeeded in overcoming the challenges and seizing the opportunities of the digital economy. It illustrates how twenty-one organizations have leveraged their capabilities to create disruptive innovations, to develop digital business models, and to digitally

transform themselves. These cases stem from various industries (e.g. automotive, insurance, consulting, and public services) and countries, reflecting the many facets of digitalization. As all case descriptions follow a uniform schema, they are easily accessible, and provide insightful examples for practitioners as well as interesting cases for researchers, teachers and students.

Digitalization is reshaping business on a global scale, and it is evident that organizations must transform to thrive in the digital economy. Digitalization Cases provides first-hand insights into the efforts of renowned companies. The presented actions, results, and lessons learned are a great inspiration for managers, students, and academics. Anna Kopp, Head of IT Germany, Microsoft

Understanding digitalization in all its facets requires knowledge about its opportunities and challenges in different contexts.

Providing 21 cases from different companies all around the world, Digitalization Cases makes an important contribution toward the comprehensibility of digitalization – from a practical and a scientific point of view. Dorothy Leidner, Ferguson Professor of Information Systems, Baylor University This book is a great source of inspiration and insight on how to drive digitalization. It shows easy to understand good practice examples which illustrate opportunities, and at the same time helps to learn what needs to be done to realize them. I consider this book a must-read for every practitioner who cares about digitalization. Martin Petry, Chief Information Officer and Head of Business Excellence, Hilti

This extensive coverage includes contributions from relevant institutions in the Europe, North America, Latin America, Africa, Asia, Australia and New Zealand.

"You can be lonely anywhere, but there is a particular flavor to the

loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, *The Lonely City* is not just a map, but a celebration of the state of loneliness. It's a
