This volume examines the nature of second language listening proficiency and how it can be assessed. The book highlights the need for test developers to provide a clear explication of the ability constructs which underpin the tests they offer in the public domain. This is increasingly necessary if claims about the validity of test score interpretation and use are to be supported both logically and with empirical evidence. It operationalises a comprehensive test validation framework which adopts a socio-cognitive perspective. The framework embraces six core components, examining and then analysing Cambridge ESOL listening tasks from the following perspectives: Test Taker; Cognitive Validity; Context Validity; Scoring Validity; Criterion-related Validity; and Consequential Validity.

This volume provides an introduction to the English Profile Programme and discusses its latest findings. English Profile in Practice is an essential resource for teachers, syllabus designers, educational planners, language testers, and other ELT professionals working with the Common European Framework of Reference (CEFR). It includes: information about the English Vocabulary Profile, which describes the words and phrases learners of English know and use at each level of the CEFR; fascinating insights into the English Grammar Profile, exploring what it means to develop grammatical proficiency; discussion about what language learners' output 'looks like' at each of the CEFR levels; and information about how English Profile research is being used in the field of ELT.

This book presents grammar in a listening context and includes the full range of exam tasks.

This book introduces the theoretical and empirical bases for the definition of language learning level in functional 'Can Do' terms for the English Profile Programme, setting out the ambitions of the Programme and presenting emerging findings. The English Profile Programme is an elaboration of the performance level descriptions of the Common European Framework of Reference for Languages (CEFR) that is concerned specifically with the English language. The CEFR has become influential in building a shared understanding of performance levels for foreign language learners. However, there is a considerable gap between the broad descriptions of levels provided, which covers a range of languages and learning contexts, and the level of detail required for applications such as syllabus or test design, which this volume addresses. With its combination of theoretical insights and practical advice, this is a useful work for academics, policy-makers, curriculum designers, textbook writers, postgraduate students and examination board staff.

English has six levels within the CEFR are A1, A2, B1, B2, C1 and C2. CEFR (Common European Framework of Reference for Languages)Beginner Level: A1 A2Intermediate Level: B1 B2Advance Level: C1 C2.
