"A ladybug searches the garden for her musical instrument and song."--

One works. One looks around. One meets people. But very little communication takes place . . . That is the nature of this little island. As five apparently unrelated characters meet in a seemingly insignificant garden, the autumnal sun shines overhead and everybody waits for rain. What they discuss is superficially anything that can pass the time. What is portrayed is the very essence of England, Englishness, class, unfulfilled ambition, loves lost and homes that no longer exist. Storey's timeless play is a beautiful, compassionate, tragic and darkly funny study of the human mind and a once-great nation coming to terms with its new place in the world.

concerts. Containing some of Elgar's finest letters, many never before published, the volume also draws on diaries, manuscript notes, and personal recollections to fill gaps in the correspondence, creating a rich and full portrait of a fascinating society and a great artist at the height of his powers.
