National Book Critics Circle Award Winner for Autobiography: "A powerful story of the meaning of family and tradition inside a little-known culture" (San Francisco Chronicle). In a remote corner of the world, forgotten for nearly three thousand years, lived an enclave of Kurdish Jews so isolated that they still spoke Aramaic, the language of Jesus. Mostly illiterate, they were self-made mystics, gifted storytellers, and humble peddlers who dwell in harmony with their Muslim and Christian neighbors in the mountains of northern Iraq. To these descendants of the Lost Tribes of Israel, Yona Sabar was born. Yona's son, Ariel, grew up in Los Angeles, where Yona had become an esteemed professor, dedicating his career to preserving his people's traditions. Ariel wanted nothing to do with his father's strange immigrant heritage—until he had a son of his own. Ariel Sabar brings to life the ancient town of Zakho, discovering his family's place in the sweeping saga of Middle Eastern history. This powerful book is an improbable story of tolerance and hope set in what today is the very center of the world's attention. "Graceful and resonant. . . . A personal undertaking for a son who admits he never understood his unassuming, penny-pinching immigrant father." —The New York Times Book Review "Sabar's family history turns out to be more than the chronicle of one man's efforts to retain something of his homeland in new surroundings. It's also a moving story about the near-death of an ancient language and the tiny flicker of life that remains in it." —The Washington Post Book World "One of the best recent memoirs I've read." —The Huffington Post

"A valuable history [and] a stark warning to Washington policy and strategy makers." —James Stejskal, former US Army Special Forces and CIA officer In 2002, Sam Faddis was named to head a CIA team that would enter Iraq to facilitate the deployment of follow-on conventional military forces numbering over 40,000 American soldiers. This force, built around the 4th Infantry Division, would, in partnership with Kurdish forces and with the assistance of Turkey, engage Saddam's army in the North as part of a coming invasion. Faddis expected to be on the ground in Iraq within weeks, the entire campaign likely to be over by summer. Over the course of the next year, virtually every aspect of that plan for the conduct of the war in northern Iraq fell apart. The 4th Infantry Division never arrived, nor did any other conventional forces in substantial number. The Turks not only refused to provide support, they worked overtime to prevent the United States from achieving success. And an Arab army that was to assist US forces fell apart before it ever made it to the field. Alone, hopelessly outnumbered, short on supplies, and threatened by Iraqi assassination teams and Islamic extremists, Faddis's team, working with Kurdish peshmerga, miraculously paved the way for a brilliant and largely bloodless victory in the North and the fall of Saddam's Iraq. That victory, handed over to Washington and the Department of Defense on a silver platter, was then squandered. The decisions that followed would lead to catastrophic consequences that continue to this day. This is the story of the brave and effective team of men and women who overcame massive odds to help end the nightmare of Saddam's rule. It is also the story of how incompetence, bureaucracy, and ignorance threw that success away and condemned Iraq and the surrounding region to chaos

The Jews of Kurdistan is a unique historical document in that it presents a picture of Kurdish Jewish life and culture prior to World War II.

Kurds are the largest stateless people in the world. An estimated thirty-two million Kurds live in "Kurdistan," which includes parts of Turkey, Iraq, Syria, and Iran today's "hot spots" in the Middle East. The Kurdish Spring explores the subjugation of Kurds by Arab, Ottoman, and Persian powers for almost a century, and explains why Kurds are now evolving from a victimized people to a coherent political community.David L. Phillips describes Kurdish rebellions and arbitrary divisions in the last century, chronicling the nadir of Kurdish experience in the 1980s. He discusses draconian measures implemented by Iraq, including use of chemical weapons, Turkey's restrictions on political and cultural rights, denial of citizenship and punishment for expressing Kurdish identity in Syria, and repressive rule in Iran.Phillips forecasts the collapse and fragmentation of Iraq. He argues that US strategic and security interests are advanced through cooperation with Kurds, as a bulwark against ISIS and Islamic extremism. This work will encourage the public to look critically at the post-colonial period, recognizing the injustice and impracticality of states that were created by Great Powers, and offering a new perspective on sovereignty and statehood.

Moses, at the end of his life, refuses to give up his soul to God, who is forced to take it himself with a single kiss.

Bestselling author Jean Sasson tells the dramatic true story of a young woman caught up in Saddam Hussein's genocide of the Kurdish people of Iraq. One morning Joanna, a young bride living in the Kurdish mountains of Iraq, was surprised to see dead birds drop silently out of the clear sky. They were followed by sinister canisters falling to the ground, bringing fear and death. It was 1987, and Saddam Hussein had ordered his cousin 'Chemical Ali' to bombard Joanna's village, Bergalou, with chemical weapons. Temporarily blinded in the attack, Joanna was rescued by her husband, a Kurdish freedom fighter. After being caught in another bombardment and left for dead in the rubble, they managed to flee over the mountains in a harrowing escape. Now living in the UK and working for British Airways, Joanna has told the story of her eventful life to Jean Sasson, the bestselling chronicler of oppressed women's lives in the Princess trilogy and Mayada. Love in a Torn Land is published while the world watches the trial of the notorious 'Chemical Ali', Saddam Hussein's most bloodthirsty henchman, for crimes including the genocide of the Kurdish people.
