Presenting a vision of the luxury sector and its management, this edited book describes “the new luxury” through a comprehensive view of the value chain, from concept to market. The authors argue that the main characteristics of “luxury”

Read Online La Supply Chain Della Moda Strumenti

are linked to specific resources and competencies found throughout the value chain and that value is a result of the interaction between the brand and stakeholders, and more precisely with their clients. Taking an interdisciplinary approach, New Luxury Management encompasses both strategic and functional aspects of luxury management, providing innovative solutions to the successful creation and management of value across the organization, from leadership, human resources, financial management, marketing and economic perspectives.

are based on presentations delivered at IT4Fashion 2016, the 6th International Conference in Business Models and ICT Technologies for the Fashion Supply Chain, which was held in Florence, Italy, in April 2016. This conference series represents a targeted response to the growing need for research that reports and debates supply chain business models and technologies applied to the fashion industry, with the aim of increasing knowledge in the area of product lifecycle management and supply chain management in that industry.

In the second issue of 2015, the Journal of International Studies of the scientific association, Arethuse as is by now a tradition, presents a comparison and discussion of international academic scholars on three scientific areas, Strategic Management, Economics and Statistics, and Public Finance.

This book provides a clear understanding of the different business strategies and models across all markets of the fashion industry. Providing a holistic and practical approach to strategic fashion management and marketing, the book covers

brand image, supply chain, communication, price point and social media. Based on examples from international organisations – including Off-White, Nike and Zara, as well as leading luxury brands – the author identifies 13 core market sectors and explores the strategies applied in each: from creativity to their supply chain and sustainability, from segmentation strategy to brand policies and from pricing to distribution. Each chapter includes features to aid student learning, including interviews with a wide range of experts from across the
