With]n 1—2 hours after death, the blood settles into the lowest parts of the body (parts that are closest to or resting on the ground) due to gravity. The red blood cells settle out and break down into the tissues, leaving purplish marks that later become yellow (due to the breakdown of hemoglobin).

Received document entitled: REPORTER'S TRANSCRIPT OF PRELIMINARY HEARING

This is a story of murder in the pursuit of the wealth and recognition which significant scientific discovery can bring. In the busy research lab of Dr. Yvette Bilodeau, the harmony of her scientific team, is fatefully disrupted when a young graduate student, Mike Desfleur, is found murdered at his lab bench. Detective, Brandell Young, has been taken away from his usual big city street crimes, to work the case and quickly learns about the significance of the lab ' s focus and the ramifications of discovery in the biomedical field. Was Mike killed because of his lady killer life style or was it something else? What was stolen from the lab and why?

Welcome to Willow Falls, where dimension-tripping werewolves, angels popping through walls, and a teleporting cat are all part of an average day. Not that Cass buys into any of that nonsense. But, when dragons, actual dragons, sneak into her backyard at night to make a mess of her trash bins, she finds it impossible to ignore. Not knowing what to do, Cass turns to her eccentric new neighbor Charlie for help. Together the two, along with a ragtag group of oddballs, strive to discover more about these creatures. Where did they come from? How did they end up in the woods behind her house? And how does the teleporting cat fit into all of this? Cass must wrap her mind around a new reality of superscience, parallel worlds and time travel in order to keep her

rendering episodes and embraces your simple need for pulling the bed covers over your eyes! Weak, strong, dirty, and heroic characters help you relate to human frailties. Inconceivable terror strikes you at times to find your core ' s fear triggers. Take a deep breath as necessary! The simple fact is fear manifests deeply in all humans. Some hide the emotion with intrinsic capabilities of denial. Others blink and run on impulse! The storyline drifts around an alien tone. Subtle at times, you feel compelled to understand any life-form ' s survival needs. But, the brutality of reality puts you back on the “ home Team ” , routing for the survival of the fittest! The Sound Of Fear experience finds you reminiscing those times when you looked into the wind-blown bushes at dusk to see the imaginary shadows or when you thought twice about going into the dark open waters of that expansive pond, lake or ocean. The book ' s simple
