Delicate transparent washes, lively impasto surfaces, radical multi-dimensional effects... What will YOU think of next?

An architectural monthly.

"The art of command is...to be the complete master, and yet the complete friend of every man on board; the temporal lord and yet the spiritual brother of every rating; to be detached and yet not dissociated.' A Seaman's Pocket-Book, 1943', has found huge appeal with the British public. Presented in the same format, the Officer's Handbook gathers together useful advice and instruction for those naval officers fighting the Second World War on all aspects of their job, expressed in the benevolent language of the day, when authority was respected. The Handbook has been compiled and edited by Brian Lavery, who provides commentary and an introduction. Sections include: the Officer's Aid Memoire containing notes of the training courses at one of the officer training schools; Notes for medical officers and treatment of battle casualties afloat; Notes for captains on taking command of their first ship; Notes for commanding officers; Notes on the handling and safety of ships and notes on dealing with disobedience and mutiny. While suffused with nostalgia and charm, the various contents of this book are an authentic presentation of matters of training, authority and deportment in the wartime navy. The book is sure to appeal not only to those who served in the war or had a relative who was in the officer class, but also to anyone who wants to gain a greater understanding of the day-to-day administration of the wartime navy.

SSN 14 is a dramatic and honest account of a year in the life of HMS Turbulent, the Royal Navy nuclear powered attack submarine led by Ryan Ramsey. During 2011 Turbulent participated in the Libya intervention and passed through the Suez Canal to take up patrol in the Indian Ocean against the extraordinary political backdrop of the Arab Spring, in the period where both Colonel Gaddafi and Osama Bin Laden were killed and piracy and terrorism was rife. Turbulent suffered a catastrophic failure of its cooling systems. The fight to survive tested Ryans command to its limits. Although the suffering was immense, the entire crew survived intact. Ryan also had to deal with constantly changing crew and transform them into a tight-knit, smoothly functioning team that could meet, and exceed, any challenge thrown at them. This books documents his failures, as well as his successes and offers a unique insight into leadership in the most challenging of environments. No matter where your business battles are fought, this will help you be phenomenal at what you do.

NASA pioneer George M. Low's remarkable life, accomplishments, and legacy as a key visionary and leader.

Natalie Shapero spars with apathy, nihilism, and mortality, while engaging the rich territory of the 30s and new motherhood

The Revolutionary War in the Lymes started as a rebellion of ideas. From its origins in the Cromwellian Saybrook Colony, Lyme (today's Lyme, Old Lyme, East Lyme and Salem) prospered under the free hand of self-governance and spurned King George III's efforts to rein in the wayward colonies. In 1765, Reverend Stephen Johnson wrote incendiary missives against the Stamp Act. A few years later, the town hosted its own Tea Party, burning one hundred pounds of British tea near the town green. When the alarm came from Lexington in 1775, Lyme's citizens were among the first to answer. Historians Jim Lampos and Michaelle Pearson explore how local Patriots shaped an epic revolt.

\*An illustrated collection of 80 of history's most interesting, profound, and sometimes unknown speeches from a range of scintillating personalities such as Winston Churchill, Maya Angelou, Barack Obama, Abraham Lincoln, Groucho Marx, and Tina Fey\*--
