Do you understand how your cardinal memories are the keys to your story development? Or how these very same memories may limit your potential? *Lighten Up* is more than a coming-of-age memoir. It is an in-depth look at Rodney Laney's disengagement from his cardinal memories. The book is humorous and provocative as Laney describes his journey into meditation and spirituality. Once you learn how to release the negative emotions attached to the images in your mind, you'll free yourself from the habitual thoughts and emotions that cause your circular and limiting behavior. And once you release the emotions weighing you down, you'll actually feel lighter. And maybe your stories will be funnier, as well.

Mastering the basic facts for addition, subtraction, multiplication, and division is an essential goal for all students. Most educators also agree that success at higher levels of math hinges on this fundamental skill. But what's the best way to get there? Are flash cards, drills, and timed tests the answer? If so, then why do students go into the upper elementary grades (and beyond) still counting on their fingers or experiencing math anxiety? What does research say about teaching basic math facts so they will stick? In *Math Fact Fluency*, experts Jennifer Bay-Williams and Gina Kling provide the answers to these questions—and so much more. This book offers everything a teacher needs to teach, assess, and communicate with parents about basic math fact instruction, including The five fundamentals of fact fluency, which provide a research-based framework for effective instruction in the basic facts. Strategies students can use to find facts that are not yet committed to memory. More than 40 easy-to-make, easy-to-use games that provide engaging fact practice. More than 20 assessment tools that provide useful data on fact fluency and mastery. Suggestions and strategies for collaborating with families to help their children master the basic math facts. *Math Fact Fluency* is an indispensable guide for any educator who needs to teach basic facts. This approach to facts instruction, grounded in years of research, will transform students' learning of basic facts and help them become more confident, adept, and successful at math.

Fears of disunity, conflict and even legal problems have caused many church leaders to avoid confronting Christians who are living in sin. Challenging the church's reluctance, Dr. Laney provides a biblical, practical and loving handbook for pastors and lay leaders alike on church discipline.

This Handbook outlines the current state of research in social studies education — a complex, dynamic, challenging field with competing perspectives about appropriate goals, and on-going conflict over the content of the curriculum. Equally important, it encourages new research in order to advance the field and foster civic competence; long maintained by advocates for the social studies as a fundamental goal. In considering how to organize the Handbook, the editors searched out definitions of social studies, statements of purpose, and themes that linked (or divided) theory, research, and practices and established criteria for topics to include. Each chapter meets one or more of these criteria: research activity since the last Handbook that warrants a new analysis, topics representing a major emphasis in the NCSS standards, and topics reflecting an emerging or reemerging field within the social studies. The volume is organized around seven themes: Change and Continuity in Social Studies Civic Competence in Pluralist Democracies Social Justice and the Social Studies Assessment and Accountability Teaching and Learning in the Disciplines Information Ecologies: Technology in the Social Studies Teacher Preparation and Development The Handbook of Research in Social Studies is a must-have resource for all beginning and experienced researchers in the field.

The biggest thing in life for most people aside from personal relationships and health is to earn a living. This comes down to four things: 1.) Education 2.) Finding a job, keeping it 3.) Starting and running a business 4.) State of being, are you capable of being out there, around people These are all huge areas. I cover them all somewhere through all the books I've written because I know the real world and I know it's not the glittery world you can see on TV at anytime but a lot of people, especially young ones, don't know this then when the real world hits them straight-on for the first time, it's like a spear piercing through their being. Life is hard. I wrote the "People Power" books because I lived a fun, easy life until a few tragedies hit

then I knew anybody can end up sick, unemployed, feeling hopeless, uninspired and destitute.

Tomboy Laney Jenkins has all she ever wanted in Harper, Kansas--an adopted family, a job, a home of her own... but most of all, Luke St. John. Impetuous by nature, she decides to prove to him that she's more than just another cowhand. Luke, a rancher, dreams of heading off to Oregon. He figures a woman belongs with her man--and since Laney's kiss just proved beyond a shadow of a doubt that she's the woman for him, he considers the matter settled. He should have known better--Laney is the most unsettling woman around. But then again, he's one stubborn man. What will it take for them to listen to the Lord and find a love that can endure?
