I read Leadership Is an Art by Max Depree for the first time almost 30 years ago. I highlighted it, wrote in the margins, and learned some of its lessons. I thought it was a great book then. When I opened the book this past summer, I was amazed by two things. I was amazed that I had not opened this book in more than two decades.

Since it was first published to wide acclaim in 1992, the bestselling *Leadership Jazz* has firmly placed itself among the great business classics. Former President Bill Clinton called it "astonishing," and the late Peter Drucker advised, "Read this slowly. This book is wisdom in action." Now updated for first time in well over a decade, this powerful book reveals why today, more than ever, leadership is more an art than a science. Today's best leaders, De Pree says, are attuned to the needs and ideas of their followers, and even step aside at times to be followers themselves. Filled with insightful stories from De Pree's experience as the chairman of Herman Miller and from people he's met along the way, *Leadership Jazz* reveals how to:

- Hold people accountable and give them space to reach their potential
- See the needs of employees and those of the company as the same
- Inspire change and innovation
- Work effectively with creative people

Complete with an extensive new introduction from De Pree on why his philosophy is more relevant now than ever before, *Leadership Jazz* gives you an entirely new way to look at the difficult job of leader.

Uses nonprofit organizations as an example of a new style of management, which sets standards for leadership and service that all organizations can learn from

*Called to Serve* is for people with questions about creating and maintaining a successful nonprofit board. How can the board of a nonprofit organization work best? Now that I'm on such a board, what should I do? How can we find the best trustees? How should I think

about my work for nonprofits? What kind of relationship between a board and the staff will work best? How can we organize and develop the service of busy, committed people? Internationally renowned CEO and best-selling author Max De Pree packs his many years of experience on nonprofit boards into these short letters directed to busy folks active in nonprofit life. Brief, clear, and -- above all -- useful, *Called to Serve* notes the marks of an effective board, lays out the proper work of boards, gives choices for structuring a nonprofit board, and covers the roles and relationships of board chairpersons, trustees, and presidents. Today there are more than 1.5 million nonprofit organizations in America, with 109 million people working in this important sector of society. In spite of this surprising fact, very little training exists for this kind of service. *Called to Serve* is valuable not only because it fills this need but also because it comes from the pen of one of America's most experienced and respected business leaders.

Leadership in the workplace, says Max DePree, is like playing jazz; it's more an art than a science. Today's successful managers are attuned to the needs and ideas of their followers and even step aside at times to be followers themselves. As a result, they spark vitality and productivity from their work force. They cultivate communication and spontaneity, diversity and creativity, and the unique potential of every person in the organization to contribute to the success of the team. In *Leadership Jazz* you'll learn

- How to hold people accountable but still give them space to make mistakes.
- How to balance the needs of your employees with those of the company.
- How

to inspire change and innovation and maintain a sense of stability. - How to practice the art of delegation. - How to work constructively with creative people. - How to assess candidates for senior positions. - And much more!

Many people think leadership is a higher calling that resides exclusively with a select few who practice and preach big, complex leadership philosophies. But as this practical book reveals, what's most important for leadership is principled consistency. Time and again, small things done well build trust and respect within a team. Using stories from his time at Netscape, Apple, and Slack, Michael Lopp presents a series of small but compelling practices to help you build leadership skills. You'll learn how to create teams that are highly productive, highly respected, and highly trusted. Lopp has been speaking and writing about this topic for over a decade and now maintains a Slack leadership channel with over 13,000 members. The essays in this book examine the practical skills Lopp learned from exceptional leaders—as a manager at Netscape, a senior manager and director at Apple, and an executive at Slack. You'll learn how to apply these lessons to your own experience.

that will build a better, more successful organization. You see, author Max De Pree doesn't just discuss leadership as a hierarchy where those at the top intimidate those at the bottom to get things done. Instead, he views leadership as stewardship and focuses on the importance of building relationships and creating a lasting value system within an organization. An artful leader must be one that can enable others to reach their full potential and must take a role in developing, expressing, and defending the company's values. Good leadership is more than just leading a company to financial success, it's more about fostering relationships across all areas within an organization. As you read, you'll learn how to build meaningful relationships, how to motivate employees, and how to become an elegant leader.

The Frustrated Leader teaches leaders how to use frustration as energy to push them to the accomplishment of their vision versus being paralyzed by it.
