Solid Text Alternating Text  
Series  
Alternating Text, Parallel  
text or interlinear text is  
when your target language,  
in this case Italian, is  
presented with the  
translation directly to the

side or bellow respectively.  
A text may be presented with  
the literal translation of  
every word, or a  
sentence/paragraph  
translated into a more  
colloquial or natural way of  
expressing an idea. We find

this second way to be of more value as it emphasizes patterns which are critical to learning any language and as you will see, most languages have unique idioms. An idiom is a phrase or pattern that expresses

Something other than its  
literal meaning like "what's  
up?" You're asking how  
someone is doing, not what's  
above them in the sky.  
Alternating text has many  
advantages over a  
traditional text body.

Mainly you are able to very quickly glance down to see the translation of the idea your reading in Italian. No time is wasted flipping through glossaries and you don't risk losing your place in the book because the

Translated idea is presented  
right there on the same page  
within a glances reach.

Solid Text A traditional  
text body or text written  
entirely in one language has  
advantages of its own.

Mainly, you are forced to

interpret new or unfamiliar words based upon the context and your own memory. Context is extremely important, not only in grasping the true meaning of what is being said, but developing your capability to infer what new

words mean. This skill is of the utmost value. When you meet a Italian speaker for the first time, odds are they will say a thing or two that you don't know or can't understand. Your ability to infer the meaning of a given

Solid text also forces you  
to recall definitions,  
sentence patterns, and the  
meaning of various  
expressions. Without a quick

will be challenged and grow.
