Lego Boost is a great set for kids, teens and adults to experience the fun of programming and learn serious skills during play. The full scope of functionalities and possibilities of the Boost-Set are often underestimated. Most users only build the models included in the set and experiment with some very simple designs. This book is to show the full potential of the Boost-Set. Based on six new models, some special building blocks and programming technics are explained. The description of each model is structured into the chapters "Build", "Code" and "Play": 1) Ball-Booster Automated ball path contraption using the color sensor and a catapult 2) Bob-It-BoosterParty-Game with score counter to show all sensoric functions 3) Weight-BoosterAutomated beam balance based on the tilt sensor 4) Boost-Writer Vehicle for writing, drawing and copying 5) Egg-Booster Multi-Color drawings on chicken eggs - even beyond Easter break 6) Cube BoosterDevice to solve the Rubix-Cube -Following the simple concept of the original Boost-Set, the book avoids theoretical explanations. In addition to detailed step-by-step building instructions, all programs are described in detail and every programming block is specifically explained. The "Play"-chapters inspire to own experiments and further development of the code and models. Especially with the writing and Cube-Solving models, the book can proof that there is not much of a gap between the Boost-Set and the more expensive Mindstorms-Set. Especially with the writing and Cube-Solving models, the book can show that there is not much of a gap between the Boost-Set and the more expensive Mindstorms-Set. Five of the six Sets can be built with just the pieces included in the original Boost-Set (17101). Only one set needs two extra bricks. These extra bricks are included in the Set "Arctic Explorer" (60194) or can be bought separately. This 130-page book provides many hours of fun and learning experiences for kids, teens and adults. Starting from large builds and simple programs it ranges to the complex automatic solving of a Rubix Cube.

LEGO Guns is packed with building instructions for five impressive looking "weapons" built entirely from LEGO TECHNIC parts. In this heavily illustrated 2-color book, you learn how to use LEGO TECHNIC pieces to build working model guns like the Warbeast, a sophisticated, fully-automatic submachine gun; Parabella, a semi-automatic pistol; Thriller, a slide action crossbow pistol with smooth cocking and chambering mechanisms; and the Magic Moth, a simple butterfly "knife" built with TECHNIC pieces. With the help of a bit of sanding, some rubber bands, and Crazy Glue, each gun actually shoots LEGO bricks at high speed, with surprising accuracy. The building instructions for each model are easy to follow and include detailed parts lists. LEGO Guns also includes sections discussing the general concepts of LEGO gun design and offers practical building tips and tricks. The models range from sophisticated to easy, and readers of all ages will find something enjoyable to build and play with.

Step-by-step instructions show how to build detailed LEGO models of neighborhoods - complete with homes, stores, restaurants, barbershops, and more. Enter the fantastical world of model building. The LEGO Neighborhood Book 2 is a full-color guide to creating intricate, bustling LEGO neighborhoods, and cities. In this second volume, a follow up to the runaway best-selling first volume, you'll learn even more ways to create classic architectural styles using only LEGO bricks. In addition to creating entire buildings, LEGO model-building experts Brian and Jason Lyles also show you how to create interesting architectural features like cornices, false fronts, porches, and detailed interiors and furniture. With instructions for three buildings and many smaller builds, The LEGO Neighborhood Book 2 is sure to provide hours of building fun and inspiration for readers of all ages.

Lego(R) building instruction books for age 5+. Use the Lego(R) parts you already have to build new models! Build several planes, safari animals, a school and other vehicles in simple, easy-to-follow building instructions. Brick Books uses Lego(R) parts that are the most common and versatile, so you can re-use parts from your existing collection to build the models in this book. We find that most kids are happy to improvise on colour. Alternatively, you can buy the kits we used. Models in this book were built from: - Lego(R) CLASSIC 10698. Brick Books uses a small number of kits for ALL instructions we write, and they often overlap. Visit us at brickbooks.com for further information. Simple, image-based instructions for children ages 5+, speaking any language. Develops visual-spatial ability and critical thinking in a creative context. Broaden the range and complexity of your child's models. A great confidence-builder in a fun format. Part of a series of building instructions from Brick Books. Note: We do not include any models by Lego(R), and none of the models in our books is ever repeated in another book.

Over 2 million copies sold worldwide! Be inspired to create and build amazing models with your LEGO® bricks!
