Remember the wonderfully romantic book of love letters that Carrie reads aloud to Big in the recent blockbuster film, Sex and the City? Fans raced to buy copies of their own, only to find out that the beautiful book didn't actually exist. However, since all of the letters referenced in the film did exist, we decided to publish this gorgeous keepsake ourselves. Love Letters of Great Men follows hot on the heels of the film and collects together some of history's most romantic letters from the private papers of Beethoven, Mark Twain, Mozart, and Lord Byron. For some of these great men, love is "a delicious poison" (William Congreve); for others, "a nice soft wife on a sofa with good fire, & books & music" (Charles Darwin). Love can scorch like the heat of the sun (Henry VIII), or penetrate the depths of one's heart like a cooling rain (Flaubert). Every shade of love is here, from the exquisite eloquence of Oscar Wilde and the simple devotion of Robert Browning, to the wonderfully modern misery of the Roman Pliny the Younger, losing himself in work to forget how much he misses his beloved wife, Calpurnia. Taken together, these letters show that perhaps men haven't changed all that much over the last 2,000 years--passion, jealousy, hope and longing still rule their hearts and minds. In an age of e-mail and texted "i luv u"s, this timeless and unique collection reminds us that nothing can compare to the simple joy of sitting down to read a letter from the one you love.

The Letter Men: Forty Years of Brotherhood is a memoir of friendship, trust, and respect among men. Days prior to graduating from college in 1977, a random group of fraternity brothers gathered at their favorite bar. They toasted to their upcoming freedom from the rigors of college, to becoming independent adults, and to the promise of staying connected. Over forty years they exchanged 630 letters detailing their lives, loves, successes, and struggles. Marriages, children, career challenges, relocations, health issues, and even death--nothing stopped them from corresponding and sharing their innermost thoughts, something uncommon for a group of men. Diversity in political thought, economic class, and sexual preference didn't keep them from listening to and accepting one another. With each set of letters exchanged, their bond of brotherhood grew remarkably stronger--much stronger than when they were college seniors.

We readers are marked forever by great authors. They are never really dead. We carry them around with us. I write them letters. Have you ever wanted to write a letter to an author who has been important to you? In her *Letters to Men of Letters*, Diane Joy Charney writes to the authors she admires, both living and dead, who continue to keep her company. Among these are Leonard Cohen, Franz Kafka, Marcel Proust, Vladimir Nabokov, Albert Camus, Gustave Flaubert, Balzac, Christo and André Aciman. "An insightful, thought-provoking, moving and beautifully written book. Using the unexpected and refreshing form of letters to her admired subjects, the author weaves nuanced readings of famous works with ruminations about how these relate to their creators' lives and with her own heartfelt, personal responses." -Vladimir Alexandrov B. E. Bensinger Professor Emeritus, Slavic Languages and Literatures, Yale University

Graphic artists recognize genius when they see it, and most acknowledge that de Vicq's website and book, "Bembo's Zoo," was a milestone in creative design. In his new e?ort, de Vicq takes the designs of type and ornaments (known affectionately in the trade as "dingbats") and common linecuts to form the faces of his literary heroes. In the second part he combines type ornaments and icons to suggest a face with singular attributes: pride, fear, fanaticism, and surprise. But these are not drawings; they are images arranged from the combination of specific and discrete graphic forms. They are created on a computer and not in a composing stick. They are the face, and faces, of the future. Printed throughout in two colors, often displaying the various letters, sorts and ornaments that make up the whole, this is our typographic offering of the year wholly original, totally inventive. In these typographic assemblies transformed into ingenious portraits, de Vicq has managed, in the prose of Prose, "to make the alphabet sing."

Curiosity has the ability to turn the smartest person into a reckless fool. "Few dared live as close to the border as us. Not even the long-standing peace treaty between our two nations could make people forget how the savage Men of the North used to hunt down and kidnap women here." If only Devina hadn't been so damned curious by nature, she would have never picked up that letter thrown across the Northern wall. Now, she is horrified to see that it's from a teenage girl who is only weeks away from being auctioned off in a bridal tournament. With no time to waste, Devina is determined to help the girl escape, even if it means putting herself in danger. *Forbidden Letters* is a stand-alone prequel to Elin Peer's wildly popular dystopian romance series, *Men of the North*. The entire series is out, so if you like binge reading there will be no waiting for the next installment.
