Perhaps you have read a little about numerology and wondered just how it manages to reveal so much. If you have been looking for more information to take you beyond the elementary texts and teachings of numbers, you have come to the right place. By choosing the study of this symbolic matrix, you have chosen a path that can take you into the most sublime heights and penetrating depths of human consciousness and beyond. Do you want to know a secret? Many of them can be revealed as you weave your way through a multidimensional journey of symbolic delight that numerology presents. Lynn Buess, MA, EdS, has served more than one half of a century studying, teaching, and counseling in the field of symbols, cycles, and numbers. Lynn is well qualified to be the one to outline this journey and help show you the way. He is the only practicing professional numerologist to have completed two accredited graduate degrees in which he specialized in the meaning of numbers and symbols and the psychological application of these

symbols to life. In his teaching, he reveals the psychology, cosmology, and spirituality of numerology. To him, numbers are not a static set of symbols; rather, they are like cosmic chords of sound and light that help make up the rhythms of the cosmic dance. Would you like to dance?

Have you ever been forced to consider the fact of your mortality? If confronted with cancer, how would you feel? What would you say to the people you love? What would they say to you? No two people have the same answers to these questions, a lesson I learned well during a solo six-week, 5,000-mile cross-country bike ride I called Cycle of Lives. The trip started as a fundraiser in honor of my sister, June, who died of brain cancer. But long before I even set out on my endurance ride from L.A. to Florida to N.Y., I exhaustively interviewed fifteen people across the country whose lives had also been irrevocably changed by cancer—either as patients, survivors, loved ones, or caregivers. Hearing their moving stories, which were influenced by many different forms of past and present trauma, transformed my cycling odyssey into a journey of emotional self-discovery as I relived the chaos and emotional upheaval of cancer through them: from the man who found true love after losing his soulmate to cancer, to the elite athlete who had to reckon with his all-star body finally letting him down, to the medical oncologist who cares as much about her patients as she cares for them. Whether you or someone you care about is going through cancer or some other major trauma, I hope this thought-provoking collection of astonishing stories can help you, too.

Describes how Jan Roseboro was savagely beaten and strangled before her body was tossed in her backyard pool and how her husband Michael was eventually convicted of the crime after his pregnant mistress came forward.

Is personality "in the genes"? Do our infant experiences matter,

even though we can't remember them? Why do patterns repeat within the lives of individuals and families? The Stages of Life provides answers to these and other intriguing questions, and presents a refreshingly readable introduction to human development from birth to death. The book synthesises those theories and research findings that are most helpful in explaining the paradoxes and complexities of human personality and human problems. The book provides a thought-provoking discussion of several important topics, including: how personality evolves in response to both genetic and social influences how individuals differ and what this means for them how some problems tend to develop at particular stages of the life course, from early childhood through to midlife and old age. Throughout the book, Hugh Crago relates both "nature" and "nurture" to the challenges individuals must face from early childhood through to old age. He draws attention to often-ignored clinical findings about "cross generational repetition" in families, and shows how recent developments in epigenetics may supply an explanation for such mysterious phenomena. Written without jargon, and full of new and provocative ideas, the book will be of great interest to students of counselling and psychotherapy, and it is also has much to offer the general reader. With its engaging examples from history, literature and the author's own life, readers will find that The Stages of Life illuminates puzzles in their own lives and opens a road to self-acceptance.

"This inspiring and penetrating new book by Dr. Sinor shows how we gather the courage and the force of will to make a transformational change."--Mark Thurston, Ph.D.

Research has shown that up to four percent of the population in this country are sociopaths. Many people are unaware of what a sociopath is and what they are capable of. Some may feel that something is off about their partner but don't even realize that they are in a relationship with a very dangerous and inherently evil

person. How do I know? Because that was me. My sociopath ex-husband came into my life like a freight train. From the beginning, he had me thinking we were soulmates, but I was left picking up the pieces and wondering how it all happened. As a victim of sociopathic violence, I felt compelled to share my knowledge so that the issue of emotional abuse is raised amongst the public's consciousness, empowering others to speak out. This is my personal story..."No One Knew." "Like so many of us, Renee Olivier was unaware that sociopaths can be disguised as charming, magnetic romantic partners. She relates her personal story of finding out about them the hard way - through a relationship with a man who had once been her knight in shining armor but eventually turned into a hostile, domineering, and parasitic villain. Readers who have had a similar experience will be validated. Readers who have not experienced the gaslighting and abuse (yet) will be forewarned." Donna Andersen Author of Lovefraud.com and "Love Fraud - how marriage to a sociopath fulfilled my spiritual plan"

Sometimes pain makes its mark on our lives in such profound ways that it feels like they start to define who we are. The more we try to hide the pain by wearing masks to show the world that "everything is fine", the more that pain does not allow us to have a life full of real love and real joy. My story is about this kind of pain. But beyond that, it's about the real process of healing. It's about how I finally understood the reason for so much suffering. Amid all the mess in my life, I found my way back to my safe harbor, to my truth and my self-love. In this book, my deepest desire is to take you the reader on a journey of love, understanding and acceptance, so that you can: Leave behind the cycle of suffering and experience the relief and support you will need for the next steps; Rebuild your relationships, starting with yourself followed by everyone who is important in your life; Reconnect with your self-value and your own truth, so that you can live according to your purpose in life; Experience forgiveness and allow yourself to be truthfully happy; Free the strength inside yourself!
