Little Kids First Big Book of Birds by Catherine D. Hughes Description This beautiful book is the latest addition to the National Geographic Little Kids First Big Book series. These colourful pages will introduce young children to the wonders of space, with colourful illustrations by David Aguilar and simple text that is perfect for beginning readers or for reading aloud.

Answers children's questions about the world around them, from dogs to oceans.

This book provides pictures and brief facts about a variety of different kinds of dinosaurs.

Provides answers to commonly asked questions such as "Why does my skin wrinkle in the tub?" and "Why do we see a rainbow?"

Preschoolers are full of "Where?" questions, and this next book in the best-selling Little Kids First Big Book series is full of fascinating and often surprising answers for them. This charming reference book zeroes in on location, location, location. More than 200 colorful photos are paired with age-appropriate text featuring answers to questions like, "Where does the sky end?" "Where is the highest mountain?" and, "Where was ice cream invented?" Containing several kid-friendly maps designed to expand the learning experience, this book inspires kids to be curious, ask questions, and explore the world around them.

This lively introduction to the fascinating world of science explores the different kinds of science, what scientists do, and the amazing things that scientists study: animals and plants; oceans and space; earthquakes and volcanoes; sound and light; inventions and more! Make sure kids' first experience of the wonders of science is a thrilling eye-opener with this fun reference book. Fun activities, games, and simple experiments encourage interactive learning, showing kids that anyone can use scientific observation and experimentation to be a scientist and discover new things. With bright images and age-appropriate text, this book inspires kids to be curious, ask questions, and explore the world around them and maybe even grow up to be a scientist one day, too! Topics include astronomy, botany, paleontology, malacology (that's the science of clams, snails, and other animals with shells!), zoology, and more.

This charming reference introduces young readers to the wider world by exploring languages, landscapes, weather, animals, capital cities, mountains, deserts, and other landscapes and landforms, and more. It encourages kids to get play with activities such as creating a mini-rainforest in a bottle and singing a simple song in Spanish. More than 100 colorful photos are paired with kid-friendly and age-appropriate maps along with basic facts about each continent. This book will quickly become a favorite at storytime, bedtime, or any other time.

Preschoolers are full of "Where?" questions, and this next book in the best-selling Little Kids First Big Book series is full of fascinating and often surprising answers for them. This charming reference book zeroes in on location, location, location. More than 200 colorful photos are paired with age-appropriate text featuring answers to questions like, "Where does the sky end?" "Where is the highest mountain?" and, "Where was ice cream invented?" Containing several kid-friendly maps designed to expand the learning experience, this book inspires kids to be curious, ask questions, and explore the world around them.

This adorable reference introduces young readers to birds of all kinds: big and small, flyers and swimmers, colorful and plain. They ' ll find backyard favorites, such as robins and cardinals and be introduced to more unique species that inhabit rain forests and deserts around the world. Bird behaviors kids can relate to, including singing, dancing, building, swimming, and diving, reveal fascinating insights into the avian world. More than 100 colorful photos are paired with profiles of each bird, along with facts about the creatures' sizes, diets, homes, and more. This charming book will quickly become a favorite at storytime, bedtime, and any other time.

Profiles several different animals from around the world that live in different habitats.

A fact-filled introduction to the wild and wonderful world of weather. You'll discover how a rainbow forms; learn why some places are hot and others cold; and even play some games!
