This report provides an overview of Judge Barrett's jurisprudence and scholarship and discusses how the Supreme Court might be affected by her confirmation. It first explores the nominee's views on three cross-cutting issues—the role of the judiciary, constitutional construction, and statutory interpretation. The report then addresses the nominee's jurisprudence in six areas of law where the Supreme Court has been closely divided or where the nominee has issued significant opinions, particularly in cases where she disagreed with other jurists. These areas of the law were identified primarily by reviewing Judge Barrett's written judicial opinions and academic scholarship. The report concludes with a number of tables that catalog and briefly describe each of the roughly 90 majority, concurring, and dissenting opinions authored by Judge Barrett during her 35-month tenure on the federal bench

This presents top scientific research by leading researchers and practitioners on the critical issue of adapting to climate change.

In a context where schools are held more and more accountable for the education they provide, data-based decision making has become increasingly important. This book brings together scholars from several countries to examine data-based decision making. Data-based decision making in this book refers to making decisions based on a broad range of evidence, such as scores on students ' assessments, classroom observations etc. This book supports policy-makers, people working with schools, researchers and school leaders and teachers in the use of data, by bringing together the current research conducted on data use across multiple countries into a single volume. Some of these studies are ' best practice ' studies, where effective data use has led to improvements in student learning. Others provide insight into challenges in both policy and practice environments. Each of them draws on research and literature in the field.

In Cobra Killer, authors Andrew E. Stoner and Peter A. Conway tell for the first time in full detail the twisted story of a pair of young, aspiring gay adult film producers whose quest for fame at any cost leads to the gruesome murder of the man who stands in their way, gay porn entrepreneur Bryan Kocis. News of the killing of the forty-four-year-old (stabbed twenty-eight times, his throat slashed to near decapitation) in his suburban home sends shock waves through the bucolic Pennsylvania town. Neighbors were horrified to hear about the murder but equally astonished to learn that Kocis ran a small but thriving online porn operation from his home. The murder investigation leads police and prosecutors to the far reaches of the country, from Virginia to New York City, to Las Vegas, and ultimately to a nude beach in San Diego, where investigators facilitate an incredible clandestine suspect surveillance. The manhunt nets Harlow Cuadra and his lover Joseph Kerekes, both former military men, turned male models, turned hustlers, turned porn producers, who finally land at the bottom of a deadly conspiracy. Cobra Killer takes readers into the sometimes alluring, sometimes dangerous and often surprising world of gay porn and the deceit, schemes, and ultimate betrayals lying underneath the fantasy.
