~~"Moody Mohini belongs to a legendary family of storytellers, telling tall tales is supposed to be in her genes. Except, she doesn't think so - even though her family (as well as just about everyone in Mithika) expects her to be the torchbearer of this rather marvelous tradition. So, cracking under the pressure of a plot line one day, she runs away from home, only to be held hostage by a spunky spirit, who traps her in a strange spell and whisks her off on a whirlwind tour of India and its many storytelling traditions. How else can Mohini break the charm (you guessed it!) by telling a story herself!" -- Back cover.~~

~~Where can you find the 'Devil's footprints'? What happened at the 'hangman's stone'? Did Sweeney Todd, the demon barber of Fleet Street, ever really exist? Where was King Arthur laid to rest? Bringing together tales of hauntings, highwaymen, family curses and lovers' leaps, this magnificent guide will take you on a magical journey through England's legendary past.~~

~~Self-Sufficiency.~~

The Lay of the Land is a book for all, who love nature. The author, Dallas Lore Sharp, wrote this collection of essays about flora and fauna on his property in 1908. In addition to the descriptions the book offers diverse illustrations of the world of nature.

An exploration of the wild spirits that once roamed the lands and inhabited the waters and the pagan rites used to gain their good will • Explores medieval stories and folk traditions of brownies, fairies, giants, dragons, will-o'-the-wisps, and demons • Explains the specific rites performed to negotiate with the local spirits and ensure their permission before building on new land • Shows how these beliefs carried through to modern times, especially in architecture Our pagan ancestors knew that every forest has brownies and fairies, every spring its lady, and every river malevolent beings in its depths. They told tales of giants in the hills, dragons in the lakes, marshes swarming with will-o'-the-wisps, and demons and wild folk in the mountains who especially causing landslides, avalanches, and floods. They both feared and respected these entities, knowing the importance of appeasing them for safe travel and a prosperous homestead. Exploring medieval stories, folk traditions, spiritual place names, and pagan rituals of home building and site selection, Claude Lecouteux reveals the multitude of spirits and entities that once inhabited the land before modern civilization repressed them into desert solitude, impenetrable forests, and inaccessible mountains. He explains how, to our ancestors, enclosing a space was a sacred act. Specific rites had to be performed to negotiate with the local spirits and ensure proper placement and protection of a new building. These land spirits often became the household spirit, taking up residence in a new building in exchange for permission to build on their territory. Lecouteux explores Arthurian legends, folk tales, and mythology for evidence of the untamed spirits of the wilderness, such as giants, dragons, and demons, and examines the rites and ceremonies used to gain their good will. Lecouteux reveals how, despite outright Church suppression, belief in these spirits carried through to modern times and was a primary influence on architecture, an influence still visible in today's buildings. The author also shows how our ancestors' concern for respecting nature is increasingly relevant in today's world.

This standard reference book combines the related subjects of folklore, myth, legend and romance. From Aban, a sixth-century saint, to weather, the 350 substantial entries all have full references to sources, synopses of relevant stories, cross-references and discussions of their origin, nature and development.

From the #1 New York Times best-selling author of The Darkest Minds comes a sweepingly ambitious, high-octane tale of power, destiny, love, and redemption. Every seven years, the Agon begins. As punishment for a past rebellion, nine Greek gods are forced to walk the earth as mortals. They are hunted by the descendants of ancient bloodlines, all eager to kill a god and seize their divine power and immortality. Long ago, Lore Perseus fled that brutal world, turning her back on the hunt's promises of eternal glory after her family was murdered by a rival line. For years she's pushed away any thought of revenge against the man-now a god-responsible for their deaths. Yet as the next hunt dawns over New York City, two participants seek her out: Castor, a childhood friend Lore believed to be dead, and Athena, one of the last of the original gods, now gravely wounded. The goddess offers an alliance against their mutual enemy and a way to leave the Agon behind forever. But Lore's decision to rejoin the hunt, binding her fate to Athena's, will come at a deadly cost-and it may not be enough to stop the rise of a new god with the power to bring humanity to its knees.
