Legio IX Hispana, also written Legio nona Hispana or Legio VIII Hispana, was a legion of the Imperial Roman army that existed from the 1st century BC until at least AD 120. The legion fought in various provinces of the late Roman Republic and early Roman Empire. It was stationed in Britain following the Roman invasion in 43 AD. The legion disappears from surviving Roman records after c. AD 120 and there is no extant account of what happened to it. The unknown fate of the legion has been the sub

The rebellion that the legion had gone to crush seemed a million miles away from the cold wet exertion that Publius Quinctilius Varus' men were now struggling through. The forest became dark as the tree canopies closed in around them. Sounds could be heard coming from the tree-line; along with strange shadows.

by members of his cohort. The discipline was used by senior commanders in the Roman Army to punish units or large groups guilty of capital offences, such as cowardice, mutiny, desertion, and insubordination, and for pacification of rebellious legions.

A vast tapestry of ancient times unfolds in this stirring tale of adventure and romance, whose setting reaches from the hills of Rome to the limits of the known world in the age of the Emperor Caligula.

In AD383, according to Bishop Eucherius of Lyon, flooding caused part of the bank of the River Rhone to collapse, revealing a massed grave of thousands of bodies. Eucherius identified these as a legion recruited for the Roman army from the Christians of the Theban district in Egypt, whom he claimed had been massacred nearly a century previously (near the modern village of St Maurice-en-Valais in southwestern Switzerland) for refusing to obey orders they considered immoral. This incident, asserted by Eucherius as matter of fact, is unrecorded elsewhere. Even the existence of this Theban legion is unclear.

The son of underpaid Mexican immigrants, Jaime earned a degree in mechanical engineering from Purdue. But at twenty-three, he was disillusioned with the corporate fast track. So he became an outcast American in a hard-bitten group of recruits—men on the run from their pasts, men without hope: He joined the French Foreign Legion. From the Legion's notoriously brutal training to Salazar's fierce competitiveness, ultimate disillusionment and dramatic desertion, Legion of the Lost is a compelling, firsthand account of today's French Foreign Legion that will dispel myths while adding to the legend of the finest trained army of warriors the world has ever known.

Pulled from his honeymoon, Tlingit Alaska State Trooper Robert Sable investigates the murders of the governor's brother and the brother's friends. Clutched in the dead men's hands are gold coins imprinted with the likeness of Augustus Caesar. As Sable follows the clues, he realizes a myth Roman soldiers settled in Alaska more than 2,000 years ago may be true. Closing in, he comes face to face with the architect of the murders, a village chieftain who is a descendent of the Romans. The descendents have set into motion a plot to take over the halls of power in Washington, D.C. Even the current Alaskan governor unknowingly is being used as a pawn to achieve this aim. It is up to Sable to foil the plot and put the chief and his fellow conspirators behind bars.

Legio IX Hispana had a long and active history, later founding York

from where it guarded the northern frontiers in Britain. But the last evidence for its existence in Britain comes from AD 108. The mystery of their disappearance has inspired debate and imagination for decades. The most popular theory, immortalized in Rosemary Sutcliffe's novel *The Eagle of the Ninth*, is that the legion was sent to fight the Caledonians in Scotland and wiped out there. But more recent archaeology (including evidence that London was burnt to the ground and dozens of decapitated heads) suggests a crisis, not on the border but in the heart of the province, previously thought to have been peaceful at this time. What if IX Hispana took part in a rebellion, leading to their punishment, disbandment and *damnatio memoriae* (official erasure from the records)? This proposed 'Hadrianic War' would then be the real context for Hadrian's 'visit' in 122 with a whole legion, VI Victrix, which replaced the 'vanished' IX as the garrison at York. Other theories are that it was lost on the Rhine or Danube, or in the East. Simon Elliott considers the evidence for these four theories, and other possibilities.
