Improve YOUR world. Dean Karlan and Jonathan Morduch's Macroeconomics 3e is built around the central concept that economics is a powerful and positive tool that students can use right now to improve their world. Macroeconomics uses examples and issues that resonate with students' experience to draw them in and frame ideas to help develop their economic intuition. - Using a balanced approach, students are able to sharpen their own understanding of topics by focusing on the data and evidence behind the effects they see. Students are equipped to understand and respond to real-life situations thought their new economic lens and challenged to decided how they will improve their world. -The third edition delivers core economic concepts along with exciting new ideas in economic though and strives to keep students engaged by confronting issues that are important in the world. - This text combines a familiar curriculum with material from new research and applied areas such as finance, behavioral economics, and the political economy. Students and faculty will find content that breaks down barriers between what takes place in the classroom and what happens in our nation and our world, with applications that are driven by empirical evidence, data, and research. - Karlan and Morduch show students that economics is a tool to improve one's own life and promote better public and business policies in the world. At the same time, this third edition challenges students to reach their own conclusions about how they will improve their world.

Steve Slavin's lively and comprehensive Macroeconomics student-friendly, step-by-step approach, coupled with its low price and built-in Workbook/Study Guide is very attractive to adopters. Instructors and students like the author's humorous anecdotes, direct language, and easy conversational style. The text encourages active rather than passive reading.

By retaining a strong focus on policy, Environmental Economics and Management, Second Edition provides an applied, practical approach to environmental economic theory accessible to students with small or vast economic knowledge. The textbook presents a broad study of environmental issues and explores economic theories to reinforce the lessons. Offering a long-lasting understanding of real-world environmental problems and policy solutions, Callan and Thomas provide a strong foundation for the environmental managers of tomorrow.

Discover how to use managerial economics to both diagnose and solve business problems with this breakthrough text, designed specifically for MBA learners like you. Froeb/McCann/Ward/Shor's MANAGERIAL ECONOMICS, 4E offers a succinct, fast-paced, yet challenging, approach full of invaluable insights from cover to cover. This edition incorporates less math and fewer technical models, graphs and figures than traditional managerial economics books while emphasizing the real decisions that today's managers face on a daily basis. Current, interactive applications place you in the roles of decision maker within a variety of real business scenarios, making this book an excellent ongoing resource for your business career. The latest updates throughout this lively edition keep you abreast of the most recent economic developments and current economic challenges worldwide. With MANAGERIAL ECONOMICS, 4E you learn how to apply economic theory to even the most formidable business challenges. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Emphasizing economic tools for real world managerial applications, this work is aimed at students of managerial economics and those running courses on this topic who want to integrate calculus into their instruction.

Present Knowledge in Nutrition: Basic Nutrition and Metabolism, Eleventh Edition, provides an accessible, referenced source on the most current information in the broad field of nutrition. Now broken into two volumes and updated to reflect scientific advancements since the publication of the last edition, the book includes expanded coverage on basic nutrition, metabolism and clinical and applied topics. This volume provides coverage of macronutrients, vitamins, minerals and other dietary components and concludes with new approaches in nutrition science that apply to many, if not all, of the nutrients and dietary components presented throughout the reference. Advanced undergraduate, graduate and postgraduate students in nutrition, public health, medicine and related fields will find this resource useful. In addition, professionals in academia and medicine, including clinicians, dietitians, physicians, health professionals, academics and industrial and government researchers will find the content extremely useful. The book was produced in cooperation with the International Life Sciences Institute (<https://ilsi.org/>). Provides an accessible source of the most current, reliable and comprehensive information in the broad field of nutrition Features new chapters on topics of emerging importance, including the microbiome, eating disorders, nutrition in extreme environments, and the role of nutrition and cognition in mental status Covers topics of clinical relevance, including the role of nutrition in cancer support, ICU nutrition, supporting patients with burns, and wasting, deconditioning and hypermetabolic conditions

The fifth edition of Romer's Advanced Macroeconomics continues its tradition as the standard text and the starting point for graduate macroeconomics courses and helps lay the groundwork for students to begin doing research in macroeconomics and monetary economics. Romer presents the major theories concerning the central questions of macroeconomics. The theoretical analysis is supplemented by examples of relevant empirical work, illustrating the ways that theories can be applied and tested. In areas ranging from economic growth and short-run fluctuations to the natural rate of unemployment and monetary policy, formal models are used to present and analyze key ideas and issues. The book has been extensively revised to incorporate important new topics and new research, eliminate inessential material, and further improve the presentation.
