world's most powerful internet company, she feels she's been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus

Touch may well be one of the least understood or talked about subjects in the helping professions. A discussion on the importance and ethics of positive, caring, and appropriate touch in professions such as teaching, nursing and counselling is long overdue. Touch in the Helping Professions delivers just that, weaving together scholarly evidence, research and clinical practice from a wide range of

perspectives encompassing philosophy, theology, psychology, and anthropology to challenge assumptions about the role of touch in the helping professions. The contributors to the volume focus not only on the overarching roles of gender, age, culture and life experience, but go beyond to encompass canine-assisted therapy, touch deprivation, sacred objects, as well as key ethical considerations. The prevailing lack of dialogue, due to fear of contravening ethical boundaries, has stood in the way of an open and responsible discussion on the use of touch in therapy. Touch in the Helping Professions is a welcome and much needed contribution to the field—a window onto a fundamental need. Les collaborateurs soutiennent que le toucher sain et non sexuel n'est pas suffisamment enseigné dans le cadre de la formation professionnelle. Cette absence de dialogue – engendrée par la crainte de dépasser des bornes éthiques, fait en sorte qu'une discussion ouverte et responsable sur l'utilisation du toucher dans un cadre thérapeutique ne peut avoir lieu, alors
