Physiology is another
subject in First year of
MBBS which deals with
functioning of Human body.
This subject is kind of base
for the rest of semesters
and one can find many
recommended books for
learning physiology. In most
colleges, A.K Jain is often
the first choice, however,
K. Sembulingam is considered
best if you are planning to

Abstract: The physiologic effects of the chromogranin A peptide fragment, pancreastatin, were studied in six healthy Caucasian men, ages 25-46 years. Synthetic pancreastatin (human chromogranin A 273-301 amide) was infused into the brachial artery of each subject to achieve a local concentration of ~200 nM over 15 minutes. Forearm blood flow was measured by strain-gauge ...
