manipulation and mind control, has exploded since this clinical research term first appeared in academic journals back in 2004. In Dark Psychology and Manipulation readers will be taken into the minds, the behaviors, the tactics and the techniques of the Narcissists, Machiavellians, Psychopaths, and Everyday Sadists living and working among us. You've worked with some of these people, you've worked for them, you've dated them, married them, divorced them, admired them, feared them, but most of all wondered what it is that makes them do the dark and disturbing things they do. Whether it's your sister going through one relationship after another with an abusive, controlling, manipulative boyfriend, first husband, fiancée; or it's your own experience of having to work for an egotistical, scheming, backstabbing yet somehow wonderfully charismatic supervisor; or it's your neighbor's teenage son who seems to enjoy burning ants in the backyard on the weekends how dangerous are these people? Are they normal? Is their behavior forgivable? Should we be modeling some of our own ways of doing things-at work, in romance, at the grocery store-after them? Not all of them are crazy. Some of them are even wildly successful-in business, in romance, in general. Are they certifiable or is their behavior just a little more extreme than mine? As the field of Dark Psychology continues to grow, and researchers, clinical psychologist, social engineers, therapists, and other experts (and survivors) continue to find out more about what makes these people tick, you'll find analyses of the latest studies in Dark Psychology. Plus, the book gives readers quick and easy breakdowns of how each dark personality is different from the other, and how they are similar. Learn more about the Narcissist-and how to spot one, how to know when you're being worked by one. Find out why Psychopaths have suddenly become role models for many a CEO and upper management businessperson. How did they go from untouchable to the corporate version of James Bond? Take a look at the various techniques used by these personalities of the Dark Triad: manipulation, brainwashing, seduction. All of which are really just after two things: power and control. Do yourself a favor: educate yourself before others decide how you should be educated. Learn how others have been trying to seduce you, trying to lead you astray, down a path that they've chosen, not that you chose. Don't be the prey. Which doesn't mean you have to be the predator, either. It just means you'll be able to choose. It means you won't be at the mercy of anyone from this world of Dark Psychology.
