Manitou - Telehandlers, forklifts, aerial work platforms ...

having problems with my manitou 634-120, 05plate, stalling when using the hydraulics. it does it mostly when i lift something heavy, pull the boom in or lift the hitch with it at low revs. dealer has looked at it and says it needs a hydraulic pump to sort it, just wondering if any one else has had similar problems. 23-08-12, 11:32 PM #2. Oils – 80w/90 Hubs Oil ...

An act of pure evil haunts an old railway-bridge and town for over two-hundred years. There are four types of people who stumble upon that bridge. The stupid, the thoughtless, unsuspecting strangers, and the very young and innocent. In the summer before the bridge was abandoned the only thing you had to worry about on that bridge was an oncoming train but in the winter...Not since the nineteen sixties has anyone had to worry about that anytime of the year but during the winter there's something else on that bridge. No one knows what that something is but during the winter months anyone who wonders up on the deck of that bridge is never seen again, at least nothing of them other than the gory bloody specks scattered over the surface. Whatever it is that cast its evil there anyone who has ever seen it hasn't returned to tell their story, until recently.
