To the true francophile, the Deux Chevaux is a cultural icon that ranks with the greatest creations of French engineering. For more than four decades it formed an essential a part of French life. Reynolds offers readers a newly updated definitive illustrated history.

Seeking a quiet spot to write his memoirs, Laurent de Rodergues secludes himself in Saint-Chartier, a village in the heart of France where his grandfather once lived. Yet his tranquil life is soon disturbed by Carlos, an eccentric Irish-Argentine millionaire determined to give the town's medieval château a costly and controversial makeover. Where some see a benefactor, others see a high-handed intruder whose endless renovations have left their music festival without a home. And when the château is unveiled at last, after months of anticipation, the whole town turns out to gaze in wonder – only to find their host lying dead in a pool of blood. Laurent suspects foul play, and when the gendarmes find nothing, he makes it his mission to unmask the murderer. But where to begin? From jilted lovers to jealous rivals, disgruntled employees to shadowy associates – not to mention more than a few angry musicians – practically everyone had a reason to want Carlos dead. As Laurent quickly learns, beneath its idyllic façade, the town of Saint-Chartier is rife with resentment and secret passions.

The acclaimed investigative reporter and author of Confronting Collapse examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. Crossing the Rubicon examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting "War on Terror" are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkable draconian measures of repression, warfare and population control. Crossing the Rubicon is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.
