After 9/11, liberal professors and students faced an onslaught of attacks on their patriotism and academic freedom. In a lively narrative this book tells the story of attacks on academic freedom in the past five years. It highlights nationally prominent and lesser known cases, drawing upon media reports, university documents, and reports and studies seldom seen by the public. It shows how conservative attacks on higher education distort the facts in order to pursue an assault on liberal ideas. A wave of Web sites and think-tanks urge students to spy on their professors for any sign of deviation from the new PC: Patriotic Correctness. Free speech on campus is facing its greatest threat in a half century, and Patriotic Correctness: Academic Freedom and Its Enemies documents the danger to rights and looks to solutions for ensuring and promoting the free exchange of ideas requisite in any thriving democracy.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

The weekly source of African American political and entertainment news.

There is absolutely no better guide for haunted Wisconsin. Linda S. Godfrey. With her smooth journalistic style and her keen sense of what makes a good ghost story, she has the ability to send chills up and down your spine --Brad Steiger, author of Real Ghosts, Restless Spirits, and Haunted Places Wisconsin's leading authority on the paranormal presents strange stories from around the state, from witches in the Wisconsin Dells to spirits in the State Capitol. Readers will encounter Kenosha's Headless Nun, the Man Bat of Lacrosse, Rocky the Rock Lake Monster, and John Dillinger's phantom. They will explore Aztalan's ancient mounds, the ghostly bars and taverns of Madison and Milwaukee, and the creepy town of Caryville, one of the most haunted places in America.

The fourth estate.

Gerald J. Beyer's Just Universities discusses ways that U.S. Catholic institutions of higher education have embodied or failed to embody Catholic social teaching in their campus policies and practices. Beyer argues that the corporatization of the university has infected U.S. higher education with hyper-individualistic models and practices that hinder the ability of Catholic institutions to create an environment imbued with bedrock values and principles of Catholic Social Teaching such as respect for human rights, solidarity, and justice. Beyer problematizes

corporatized higher education and shows how it has adversely affected efforts at Catholic schools to promote worker justice on campus; equitable admissions; financial aid; retention policies; diversity and inclusion policies that treat people of color, women, and LGBTQ persons as full community members; just investment; and stewardship of resources and the environment.

What do people do all day? What did women and men do to make a living in early modern Europe, and what did their work mean? As this book shows, the meanings depended both on the worker and on the context. With an innovative analytic method that is yoked to a specially-built database of source materials, this book revises many received opinions about the history of gender and work in Europe. The applied verb-oriented method finds the 'work verbs' that appear incidentally in a wide variety of early modern sources and then analyzes the context in which they appear. By tying information technologies and computer-assisted analysis to the analytic powers - both quantitative and qualitative - of professional historians, the method gets much closer to a participatory observation of the micro-patterns of early modern life than was once believed possible. It directly addresses a number of broad problems often debated by historians of gender and early modern Europe. First, it discusses the problem of assessing more accurately the incidence, character and division of work. Second, it analyzes the configurations of work and human difference. Third, it deals with the extent to which work practices created notions of difference - gender difference but also other forms of difference - and, conversely, to what extent work practices contributed to notions of sameness and gender convergence. Finally, it studies the impact of processes of change. Drawing on sources from Sweden, the authors show the importance of multiple employment, the openness of early modern households, the significance of marriage and marital status, the gendered nature of specific tasks, and the ways in which state formation and commercialization were entangled in people's everyday lives.
