From prenatal through postpartum care, Gloria Leifer's *Maternity Nursing: An Introductory Text* provides an essential foundation for promoting the health and wellness of mothers and newborns. This edition includes the latest advances and practice standards in maternity nursing care, highlighting Healthy People 2020 and the 2011 Joint Commission National Patient Safety Goals. Part of the popular LPN Threads series, this text addresses the knowledge, skills, and scope of practice appropriate for LPN/LVN and LPN/LVN-to-ADN ladder programs. Chronological organization of content follows a sequence from family issues, fetal development, pregnancy, labor, birth, and care of the newborn, to postpartum issues with special social, familial, and cultural considerations. Organization of concepts in each chapter by simple to complex and from health to illness makes it easier to locate and understand the material. Complete, concise coverage includes a table of physiologic and psychosocial changes throughout the pregnancy,

unique content on CPR for the pregnant patient and infectious diseases acquired during pregnancy, a pictorial story of a vaginal birth, cultural considerations of pregnancy and maternal care, and nursing responses to loss, death, and grief. **UNIQUE!** A **FREE** Study Guide in the back of the book reinforces understanding with multiple-choice, fill-in-the-blank, scenario-based clinical situation questions, and online activities. Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. Health Promotion boxes and content focus on family-centered care, health promotion, illness prevention, and women's health issues. Clinical Pathways use an interdisciplinary, collaborative-care approach in tracking interventions along a timeline from assessment to discharge and follow up. Online resources for further research and study are included at the end of each chapter. **UNIQUE!** LPN Threads make learning easier, featuring a 10th-grade reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design. Coverage of the latest advances in nursing care includes fetal heart rate monitoring during labor and delivery and revised diabetes classifications. Get Ready for the NCLEX® Examination! section at the end of each chapter includes key points, review questions, and critical thinking questions for individual, small group, or classroom review. Safety Alert! boxes highlight 2011 Joint Commission National Patient Safety Goals, with special consideration for serious and potentially fatal medication errors. Easily recognizable icons for standard steps are included in each skill (e.g., hand hygiene). **UNIQUE!** Icons in page margins point to relevant animations and video clips on the companion Evolve website.

This full-color LPN/LVN-level textbook presents maternity nursing using a nursing process framework. Throughout the text are features

that help students develop critical thinking skills and apply content to practice—such as nursing procedures, nursing care plans, clinical pearls, patients' and caregivers' stories, critical thinking questions, cultural snapshots, family teaching tips, and over 200 illustrations. Each chapter is followed by an integrated study guide/workbook with NCLEX®-style questions, Critical Thinking: What Would You Do? scenarios including dosage calculations, and Study Activities including Internet activities. Introductory Maternity Nursing is an ideal complement to Hatfield, Broadribb's Introductory Pediatric Nursing, Sixth Edition. Instructors who prefer a combined maternity/pediatric text can use Klossner/Hatfield, Introductory Maternity and Pediatric Nursing.

Fully revised and updated, Maternity Nursing: An Introductory Text, 7th Edition reflects recent health care and societal changes. It also incorporates important scientific findings that are leading to improvements in maternal and newborn infant care. And, it features a new emphasis on the importance of flexibility, creativity, and responding positively to change within the nursing profession.

This work offers an introduction to maternity nursing, featuring new nutrition and weight gain information, material about new drugs and their uses, and explanations of the latest technology and equipment used in the delivery room.

Part of the popular LPN Threads series, Introduction to Maternity ; Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. "... provides clinical information and insights in a concise, structured and informative way that encourages critical thinking." Reviewed by Kim Shrieves on behalf of Nursing Times, April 2015 Concise, yet comprehensive, content is presented within the scope of practice for the LVN/LPN, but with sufficient depth to facilitate students in a ladder program allowing them to be successful with the ADN program requirements for the specialties. Step-by-step procedure lists throughout the text help you master important maternity and pediatric nursing processes with Skills Performance Checklists available on the Evolve website. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process and strengthen problem-solving skills as applied to maternity nursing. Logical organization of content from simple-to-complex and health-to-illness makes locating and accessing information easy. Key terms with phonetic pronunciations and text page references help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English, before they enter clinical practice. Health Promotion boxes emphasize the importance of family-centered care, health promotion and illness prevention, women's

health issues, and growth and development of child and parent to help you understand and teach wellness and disease prevention to patients in your care. Nutrition content highlights the importance of proper nutrition for women before, during, and after pregnancy (for those who are breastfeeding), as well as critical information about the nutrition needs and problems of newborns, infants, and children. Nursing Tips throughout provide pertinent information applicable in the clinical setting that reinforces what you have just learned while building on previously learned information. NEW! Unfolding case studies with illustrations follow first-time parents Tess and Luis throughout the stages of pregnancy and birth of their twins, with a series of critical thinking questions. NEW! Updated NCLEX exam-style review questions have been revised to a higher cognitive level to better reflect the NCLEX examination. NEW! Expanded coverage of bioterrorism and natural disasters better reflects the evolving role of the nurse in disaster situations. NEW! Enhanced appendix includes Pediatric Lab Values for quick and easy reference.
