Math in Focus mirrors the original Singapore Math's layout with books A and B for each level for Teacher's Editions, student textbooks, and student workbooks, essentially splitting the course for each level into two parts. Kindergarten is the exception to this layout since it has only workbooks rather than separate texts and workbooks; there are four of these relatively thin kindergarten student workbooks.

Math in Focus: The Singapore Approach

Math in Focus is a more recent arrival on the scene (2009). Backed by Houghton Mifflin Harcourt, it has benefited from the favorable reputation that Singapore Math @ materials enjoy and the marketing clout of a major publisher. While both series are based on Math from Singapore, there are subtle but significant differences between the two.

Singapore Math | The world's top PK-8 math education.

Math in Focusprovides an authentic Singapore math curriculum, highlighting problem solving as the focus of mathematical learning. This complete program teaches concepts using a concrete-pictorial-abstract learning progression to anchor learning in real-world and hands-on experiences. Each topic is approached with the expectation that students will understand both "how" it works, and also "why."
