Login Register. This MaxxFORce 7 diesel engine gave us a bit of a challenge with intermittent engine shutdowns. The engine code 3055 (high pressure fuel pump related) led us to a solution in the way of a TSB (technical service bulletin).

Apparently the wiring harness to the high pressure oil pump was causing a lot of headaches causing an unexpected engine shutdown.

Twenty-four hours of pure disaster, for young reporter John Winthrop First he is invited to the opera with lovely Phyllis, who utterly enchants him -- then she turns down his offer of marriage . . . in essence ruining what she, at least, had seen as a sturdy, pleasant friendship. Then he is invited to hear the will of his wealthy uncle -- and all John is left is a paltry pittance. The bitter old man obviously nursed his grudge against John's parents to his dying day "You might as well use it to light your cigar with," says the lawyer, handing him the check. The next day at the newspaper, however, holds a startling surprise for young Winthrop . . .

The book offers a comprehensive account of how humor works in short stories, by presenting a model of narrative comedy that is pragmatically as well as semantically, grammatically and stylistically informed. It is the first study to combine a sequential analysis of the comic short story with a hierarchical one, merging together horizontal and vertical narratological perspectives in a systematic way. The book covers the main areas of linguistic analysis and is deliberately interdisciplinary, using input from philosophy, sociology and psychology so as to touch upon the nature, motivations and functions of humor as a cognitive phenomenon in a social context. Crucially, The Language of Comic Narratives combines a scholarly approach with a careful explanation of key terms and concepts, making it accessible to researchers and students, as well as non-specialists. Moreover, it reviews a broad range of historical critical data by examining the source texts, and it provides many humorous examples, from jokes to extracts from comic narratives. Thus, it seeks to anchor theory in specific texts, and also to show that many linguistic mechanisms of humor are common to jokes and longer, literary comic narratives. The book tests the model of humorous narratives on a set of comic short stories by British and American writers, ranging from Evelyn Waugh and Dorothy Parker, through Graham Greene and Corey Ford, to David Lodge and Woody Allen. The validity of the model is confirmed through a subsequent discussion of apparent counter-examples.
